LC2 (right)	13.5 l	BC.HTA.00.402.10100R

SLC

side carrier

SLC side carrier easily installs on the bike for mounting LC1/LC2 side bags. Robust tubular steel serves as a secure foundation for supporting luggage on retro styled bikes. Mounting and removal of the side bags is done in seconds due to quick lock fasteners.

Features

- Bike-specific design allows installation on both sides or one side only, ideal solution for bikes with high exhausts
- No modifications are required for mounting
- Structural steel tubing with durable powder coated black finish

LS1/LS2 saddlebag

A taste of vintage: LS1/LS2 saddlebag will face every trip with ease and can be fastened easily to the versatile SLS saddle strap. Legend Gear offers unique individuality: bags in two sizes can be used on both or one side only and completed by accessory bags.

- Bag can be attached in different heights, also compatible with high exhausts
- Fastening loops and straps with anodized aluminium retaining hooks ensure safe and versatile mount of the saddle bag
- Rain protection by roll closure and waterproof inner bag
- Comfortable shoulder bag in combination with LA4 shoulder strap
- Napalon synthetic leather and waxed canvas, splash-proof inner lining
- LS1: 14 x 26 x 31 cm, LS2: 14 x 35 x 31 cm

LS1	9.8 l	BC.HTA.00.401.10000
LS2	13.5 l	BC.HTA.00.402.10000

SLS saddle strap

SLS saddle strap is designed to fasten to almost any straight motorcycle bench seat providing secure support for LS1 and LS2 saddlebags. Enhanced style for café racers, retro and street bikes.

- Modular carrying system with circumferential security straps under the seat provide additional anti-theft protection
- Fastening loops and straps with aluminum retaining hooks ensure safe mount of LS1/LS2 saddlebags in different heights, so they can be used on bikes with high exhausts
- Napalon synthetic leather
- 39 x 21 cm

SLS	BC.HTA.00.403.10000
Applications	sw-motech.com

LT1 tank bag

The sleek LT1 tank bag attaches to any steel fuel tank by using powerful magnets for secure fit and a fuel tank friendly base.

- Fits almost any steel fuel tank
- Included: 4 straps for mounting on non-magnetic fuel tanks
- Anti-skid bottom
- Zippered expandable storage
- Front cable feed-through
- Robust carrying handle
- Waterproof rain cover with clear PVC window
- Compatible with accessory bags LA1, LA2 and LA3
- Napalon synthetic leather and waxed canvas, splash-proof inner lining
- 18 x 10 x 25 cm

LT1	3.0 - 5.5 l	BC.TRS.00.401.10000
Applications		sw-motech.com

LT2 tank bag

The LT2 is a universal tank bag using a secure strap system fastened with aluminium buckle hooks that provide quick and easy access to the fuel cap.

- Overlapping cap provides additional coverage
- Front cable feed-through
- Robust carrying handle
- Waterproof rain cover with clear PVC window
- Compatible with accessory bags LA1, LA2 and LA3
- Napalon synthetic leather and waxed canvas, splash-proof inner lining
- 15 x 18 x 30 cm

LT2	5.5 l	BC.TRS.00.402.10000
Applications		sw-motech.com

LR1 tail bag

LR1 tail bag is usable as a tail bag or as backpack when venturing off the bike. LR1 performs as good as it looks.

Features

- Universal fit for seat and tail rack
- Suitable for bikes with high exhausts
- Secure four point mounting straps
- Adjustable, padded shoulder straps for use as backpack
- Roll top design
- Inside zip pocket and padded laptop sleeve (up to 15")
- Waterproof rain cover
- Napalon synthetic leather and waxed canvas, splash-proof inner lining
- 30 x 17 x 40 cm

LR1	17.5 l	BC.HTA.00.404.10000
Applications		sw-motech.com

LR2 tail bag

Universal LR2 tail bag is a smart choice when storage matters. The secure strap mounting system also includes additional tie-down straps to increase stability.

Features

- Universal fit for most motorcycle models, also for bikes with high exhausts
- Anti-skid bottom
- Secure four point mounting straps
- Waterproof inner bag
- Napalon synthetic leather and waxed canvas, splash-proof inner lining
- 68 x 45 x 30 cm

LR2	48 l	BC.HTA.00.405.10000
Applications		sw-motech.com

LA1/LA2 accessory bag

Legendary accessory bags can be fastened to almost all Legend Gear products. With their perfect mix of design and function the accessory bags are the ideal add-on for all Legend Gear products.

- Fits Legend Gear tail bags, saddle bags and tank bags
- Compatible with SLS saddle strap and SLA tank strap
- Waterproof rain cover
- LA1: designed with functional Velcro®
- LA2: designed with circumferential zipper
- Napalon synthetic leather and waxed canvas, splash-proof inner lining
- LA1: 12 x 6 x 18 cm, LA2: 15 x 5 x 18 cm

LA1	0.8 l	BC.TRS.00.403.10000
LA2	1.2 l	BC.TRS.00.404.10000

SLA tank strap

Vintage style tank strap SLA adds unique look to the bike. Military grade fastening system provides flexible and safe mount of Legend Gear accessory bags.

- Perfect fit due to its bike-specific design
- Adjustable strap
- Napalon synthetic leather
- 10.5 cm (width)

SLA	
Applications	sw-motech.com

LA3 smartphone bag

LA3 Legend Gear smartphone bag allows mounting of your smartphone to any legendary gear and features pockets for cash, credit cards or IDs.

- Suitable for screen size up to 5.5"
- Touch screen friendly
- Fits Legend Gear tail bags, saddlebags, side bags and tank bags
- Compatible with SLS saddle strap and SLA tank strap
- Circumferential zipper
- Napalon synthetic leather
- 9.4 x 2 x 18 cm

LA3	BC.TRS.00.405.10000

LA4 shoulder strap

The versatile LA4 shoulder strap is designed to assist in carrying Legend Gear when away from the motorcycle.

- Comfortable padded shoulder strap
- Solid aluminium fastening hooks
- Adjustable length from 90 to 150 cm
- Napalon synthetic leather
- 3.8 x 150 (90) cm

LA4	BC.TRS.00.406.10000

TRAX ADV – Ready for adventure!

TRAX ADV is made for adventure. This strong and sleek premium aluminium touring case is suited for any driving situation and offers high durability and protection from water and dust as well as easy handling. TRAX ADV also features strong carrying handles, a completely removable lid, glass-reinforced plastic corner caps and a large chamfer on the lower edge to optimize lean angle and ground clearance for cornering. Proudly designed and made in Germany.

Needed for installation

EVO carrier (p.26)
Adapter kits (p.27)
TRAX lock cylinder set (p.23)

Tip
TRAX ADV complete kits with bike-specific carrier available.

New
Adventure kits for selected touring motorcycles including TRAX ADV case system with top case, ALU-RACK, crash bars, engine guard and accessories.

Applications:
sw-motech.com

Protection from water and dust

TRAX ADV has been constructed waterproof and dust tight. Therefore replaceable seals, robot welding, punch rivet technology and performance tests are employed. Embossed patterns reinforce the 1.5 mm thick walls and create a unique look.

Impressive features, stunning value

The completely removable deep-drawn lid with quick-release latches and restricting ropes provides high stability even when used as a seat. Stable aluminum handles allow easy mounting to the bike and carrying. Four robust tie-down points, integrated into the lid corners provide additional loading options.

Comfort in details

Smart details like a membrane for easy opening after pressure and temperature changes or functional accessories like matched lock cylinder and key sets, accessory bags, bottle and canister kits or camping table guarantee pure adventure feeling.

Choose your own adventure

TRAX ADV is suited for any driving situation – whether the rider takes his luggage off road, through the sloping curves of a relaxed road cruise or for a short trip to the city. The touring cases are mounted and secured within seconds to the removable EVO carrier. Optional adapter kits are available for various side racks produced by other manufacturers.

TRAX ADV M/L

TRAX ADV side cases are available in two sizes and two colours. Silver cases are anodized, black cases have a powder coated finish that provides excellent protection from oxidation and abrasion.

TRAX ADV M (37 l): 49 x 23 x 37 cm / 5.1 kg

Applications:
sw-motech.com

Gear up for venture

A broad choice of accessories complements the product portfolio of the TRAX EVO line. Inner bags, bottle and canister kits or waterproof accessory bags for the cases lid are just a few examples.

Perfect fit

Lockable latches secure TRAX EVO to EVO or other carrier systems and prevent theft. Easy and quick removal of the cases are ensured. Adapters are provided for various carrier systems from different producers.

Extend your limits

TRAX EVO features chamfered case edges for maximum cornering clearance and optimal lean angle. Glass reinforced plastic corners offer extra protection on all outer corners of the case and help to distribute forces in case of impact.

Precision in lightweight construction

With a weight of only 4.7 kg at a capacity of 45 l, TRAX EVO is the one of lightest available motorcycle aluminium cases.
Super strong rivet technology provides tightness and creates a rugged design.

TRAX EVO M/L

TRAX EVO side cases are available in two sizes and two colours. Raw aluminium in silver or powder coated black finish that provides excellent protection from abrasion.

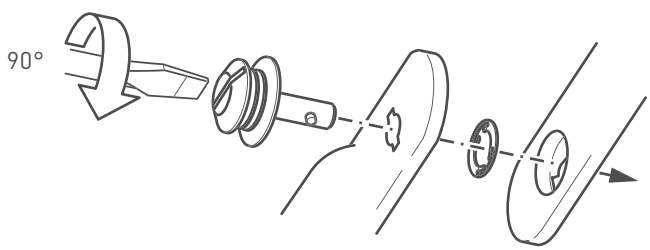
The flexible carrier system

EVO carriers are known for easy handling, perfect fit and maximum flexibility. The patented QUICK-LOCK system is designed to remove the racks from the bike within seconds without special tools by opening the quick release fasteners. Only the small mounting tabs remain visible on either side of the bike. Separately sold adapter kits for SW-MOTECH or other current touring cases guarantee safe mount to EVO carriers.



QUICK-LOCK

EVO carrier

Features

- Attaches and detaches from the bike in seconds due to QUICK-LOCK function
- Customized design
- Robust tubular steel construction, black powder coated
- Optional available key locks to lock the carrier to the bike
- Compatible with various touring cases

Tip

Add more storage space: combination of EVO carrier and ALU-RACK, adapter kit and top case

BLAZE saddlebag set

Blaze offers an innovative way to mount soft saddlebags on sportive motorcycles. The system features mounting arms that quickly attach to the motorcycle and then slip into channels placed on the backside of each bag. These support arms prevent side-to-side movement, stabilize the bags and prevent potential contact with the rear tire or exhaust. The mounting arms detach quickly to retain the look of the motorcycle when the bags are removed.

Features

- Removable support arm
- Expanding zipper that adds more volume
- Reflective trim enhances visibility
- Main compartment with top loading function
- Zippered outside pocket
- Solid carrying handle
- Durable 1680D ballistic nylon material
- 14-21 l / 14 x 30 x 44 cm / 1,200 g per bag

Included

2 BLAZE saddlebags, 2 waterproof inner bags, bike-specific mounting hardware including support arm

BLAZE saddlebag set	
Applications	sw-motech.com

A wide Velcro® backed strap attaches over the seat, connects the two bags together and provides additional support, stability and distributes the bags weight.

The bike-specific support arms with additional quick release safety straps prevent side-to-side movement even while riding at higher speeds.

When the panniers are not needed, the support arms can be removed in seconds, only the barely visible mounting brackets left in place.

DAKAR panniers

DAKAR panniers are built to survive in the roughest conditions. The 2-layer system of the bag combines a tough exterior outer layer with a waterproof inner layer to create a super-durable dry bag. Available as bike-specific version with panniers or as universal version with straps to mount on most current luggage carrier systems.

Features

- Velcro® flap for passenger seat for extra support
- Preformed interior ABS honeycomb panel for a rigid form close to the bike
- Waterproof removable inner bag and roll–top closure
- 1680D ballistic nylon with reinforced ABS material
- 32 l / 25 x 35 x 45 cm / 1,600 g per bag

Bike-specific edition

The bike-specific pannier racks are made from tubular steel and guarantee secure mounting and stability while remaining close to the bike. To fit DAKAR, simply slide on to the pannier rack and click into place.

Included

- 2 DAKAR saddlebags with quick release fasteners
- 2 waterproof inner bags
- 2 bike-specific subframes

DAKAR saddlebag set (bike-specific)	
Applications	sw-motech.com

Universal edition

DAKAR can be used on various carrier systems due to D-rings on the outer corners for strap fastening.

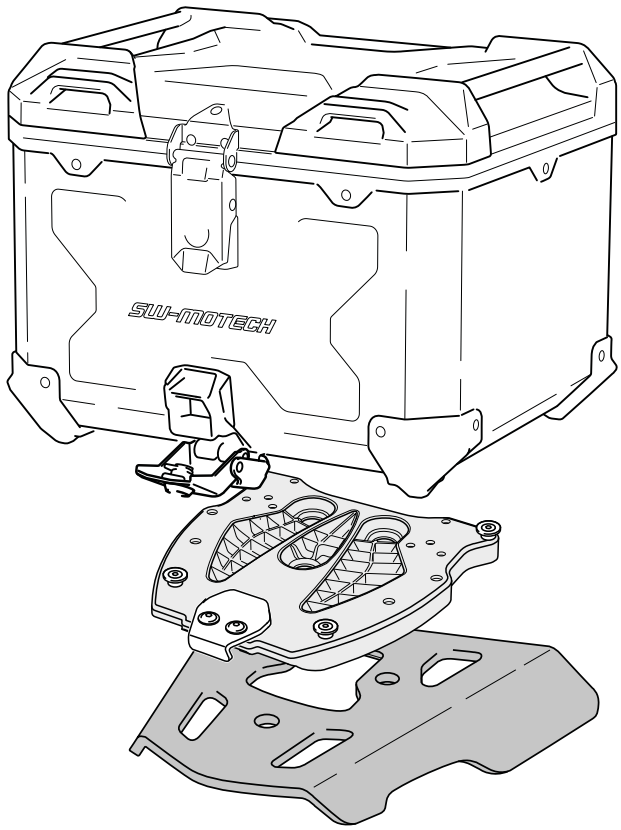
Included

- 2 DAKAR saddlebags with D-rings
- 2 waterproof inner bags
- 8 tie-down straps

DAKAR saddlebag set (universal)	BC.HTA.00.741.11000/B

TRAX ADV top case

TRAX ADV is premium luggage for any adventure regardless of your environment. The top cases of the TRAX ADV line feature the same quality characteristics as TRAX ADV side cases: stability, tightness and easy handling. The 38 l top case is lockable, fits one full face helmet and is the perfect upgrade to TRAX ADV side cases. Individual accessories are available to customize your adventure.



Adapter plate

ALU-RACK

T-RaY top case

T-RaY top cases provide reliable storage for reasonable prices. The splashproof and lockable T-RaY top cases are available in four sizes and fit one or two helmets. The robust plastic hard cases fit STEEL-RACKs and most luggage racks with an included adapter plate. A separately sold adapter plate allows safe mounting to ALU-RACKs.

Features

- Splashproof sealing
- Integrated locking system
- Push button for easy opening
- Easy to clean surface
- Sizes L and XL with custom-molded inner liner
- Weight: 4,080 – 7,000 g

Included

- T-RaY top case
- Universal adapter plate for STEEL-RACK and standard luggage racks
- 2 keys

ALU-RACK

The clean looking ALU-RACK allows quick release fitment of SW-MOTECH top cases or other luggage brands due to individual adapter plates. The versatile aluminium rear rack features the QUICK-LOCK system: three quick fasteners making installation and removal superfast and easy. Slots for fastening straps secure luggage directly on the ALU-RACK or with the optional available luggage rack extension to enlarge the rack's surface area.

Features

- Bike-specific design
- Produced with high-precision CNC technology for best fit
- Constructed from high-strength aluminium
- Black or silver powder coating for durable protection against corrosion
- Compatible to EVO carrier and TRAX side cases

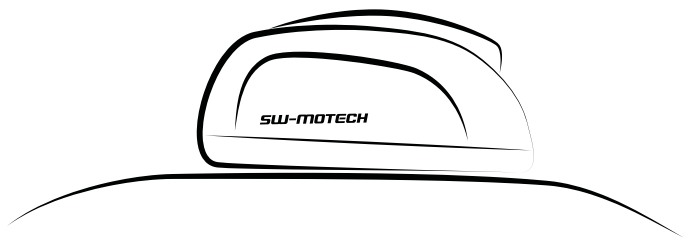
Features of all EVO tank bags

- Patented tank ring with QUICK-LOCK function
- Pull cord with snap fastener to release quick lock mechanism
- Reflective trim enhances visibility
- Flexible storage organizer
- Individual top ring positioning for perfect fit
- Also available: EVO electric tank bags (not Yukon 90)

EVO **Micro**

The smallest EVO tank bag Micro is the perfect solution for short trips and designed to store smaller items. Micro fits almost all fuel tanks.
Like all EVO tank bags, the compact Micro features a EVA plastic base that guarantees high form stability.



Features

- Lid mesh compartment
- Volume expansion with zipper garage
- 1 cable port
- Solid carrying handle
- Made from 1680D ballistic nylon material, EVA base
- 2.5-5 l / 21 x 11 x 27 cm / 870 g

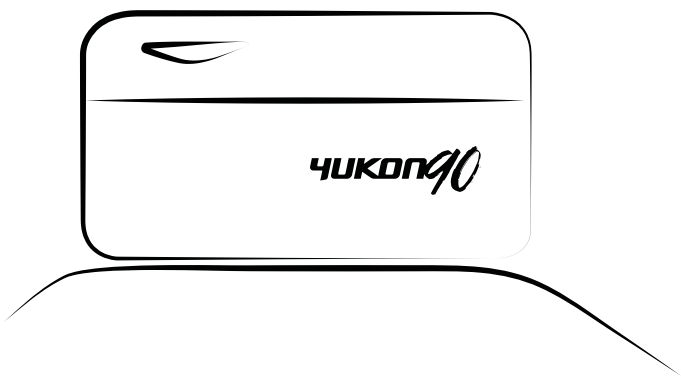
Yukon 90

Yukon 90 is the first waterproof tank bag with QUICK-LOCK function. The weather and dirt resistant tank bag has been designed with the needs of all season, all terrain driving in mind. It can easily be attached to any EVO tank ring, providing secure mounting and easy unlatching at the same time.



Features

- Robust material, welded seams, waterproof zipper
- Top flap serves as map holder
- Removable inner storage organizer with mesh compartments and flexible divider
- Also available in bright yellow colouring
- Made from waterproof and easy to clean polyester material with PVC coating
- 9 l / 19 x 16 x 29 cm / 900 g
- All features, included items and accessories are listed on p.47

EVO tank ring

QUICK-LOCK stands for highest quality, durability and innovation. According to these criteria, the EVO tank ring was developed. The patented EVO tank ring is made from fiberglass reinforced polyamide for maximum stability and features a bike-specific design for best fit. Once mounted on the gas cap, it allows easy attaching and removal of all EVO tank bags.

Tip

EVO electric tank bags already include the electric kit for the EVO tank ring. EVO electric top ring and electric kit are also available separately.

Features

- Bike-specific design for best fit and customized solutions
- Simple installation
- Easy removed for gas fill ups
- Included mounting hardware
- Made from fiberglass reinforced polyamide

EVO tank ring

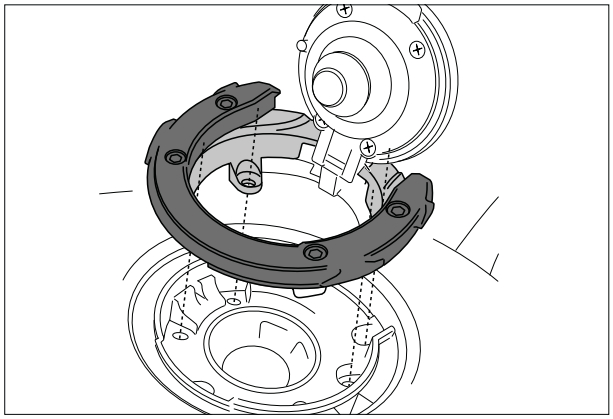
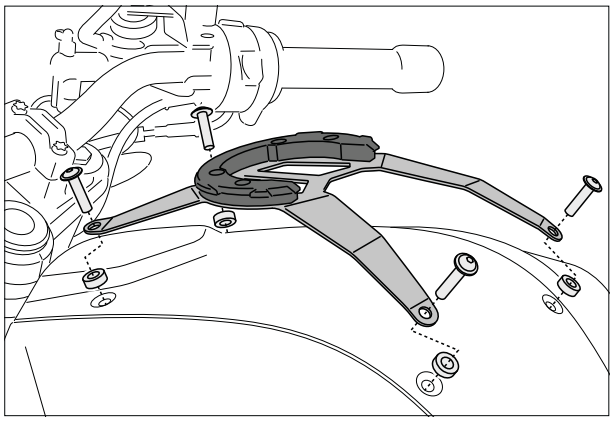
Applications	sw-motech.com



EVO tank ring variety

The EVO tank ring system is currently available for more than 460 motorcycles including customized adapter kits for replacing original parts if the gas cap has no visible screws. The complete mounting hardware is always included in delivery.



Customized solutions

The EVO tank ring system is also available for selected models with tanks that have different placed gas caps. For Honda, Yamaha and BMW models, like BMW F 700 GS, the tank ring system features a customized base.

Perfect positioning of EVO top ring

All EVO and Yukon 90 tank bags include the EVO top ring that attaches to the tank bags stable EVA base and connects with the EVO tank ring. Individual positioning of the top ring guarantees best fit for the riders needs and ideal positioning on the fuel tank.

ION tank bags

ION tank bags represent the entry level class of high-quality tank bags with QUICK-LOCK function or classic strap mounting and fit perfectly on most fuel tanks. The ION tank bag line is ideal for budget minded riders with high standards.

Features of all ION tank bags

- Compatible with ION tank ring
- Individual positioning of ION top ring for best fit
- Pull cord with snap fastener to release quick lock mechanism
- Integrated map holder, compatible with electronic device touch displays
- Retroreflective details
- Zippered volume expansion
- 1 cable port
- Inner mesh compartments
- Carrying handle
- Made from 600D polyester material with stable EVA base

The Enduro LT is the 'lite' version of strap tank bag EVO Enduro and fits almost any tank.

Features

- Compatible with GPS mount
- Made from 1680D ballistic nylon material
- 5-7.5 l / 21 x 17 x 21 cm / 760 g

EVO Enduro LT strap tank bag	BC.TRS.00.131.10000

ION **four**

Strap tank bag ION four fits any adventure bike with sloped tank form and uses safe three point strap mounting.

Features

- 2 outer pockets
- Compatible with map holder, smartphone or tablet Drybag
- Made from 600D polyester material
- 13-22 l / 33 x 23 x 36 cm / 960 g

ION four strap tank bag	BC.TRS.00.204.10000

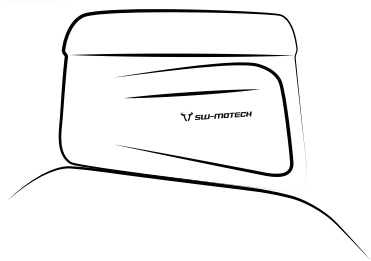
Yukon **130**

Made from durable and waterproof polyester, the Yukon 130 is built for all weather.

Features

- 2 outer pockets
- Compatible with map holder, smartphone or tablet Drybag
- Waterproof, made from polyester with PVC coating, welded seams
- 13-22 l / 33 x 23 x 36 cm / 1,340 g

Yukon 130 strap tank bag	BC.WPB.00.007.10001



Smartphone Drybag for tank bag

The waterproof smartphone Drybag is compatible with all SW-MOTECH tank bags that feature D-rings and Velcro® straps. 90 x 170 mm inner size fits almost all smartphones.

Smartphone Drybag for tank bag	BC.TRS.00.152.10000

Tablet Drybag for tank bag

The tablet Drybag is designed with durable materials to provide high abrasion resistance, water resistance, durability, and the ability to withstand hot & cold temperatures. The tablet Drybag offers space for 9.7 inch displays. Tablet and smartphone Drybag can be used with the tank bag volume expansion.

Tablet Drybag for tank bag	BC.TRS.00.151.10000

Map holder for tank bag

The map holder easily fits most SW-MOTECH tank bags due to two strong buckles and Velcro® strap. The map holder is made from durable 1680D ballistic nylon material and fits even with volume expanded bags. The inner display size measures 9.5" x 10".

Map holder for tank bag	BC.TRS.00.150.10000

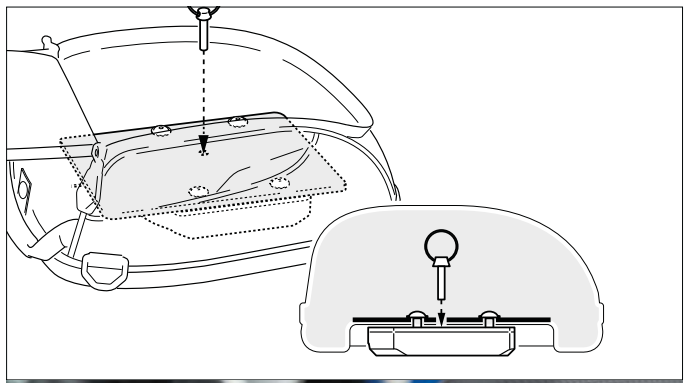
GPS mount for EVO tank bag

Within seconds the GPS mount can be attached to EVO tank bags (not Micro and Yukon 90) without blocking the instrument view. The pivotable metal bracket is compatible to most GPS devices as well as Navi Case Pro.

GPS mount for EVO tank bag	BCK.GPS.00.010.100
Navi Case Pro	▸▸ p.116

Anti-theft protection for EVO tank bag

Double safety for your belongings: a security pin prevents releasing of the tank bag from the tank and a luggage cable lock secures the tank bags zipper against theft.



Slipstream

The option to be used as a backpack make the Slipstream a truly versatile companion for urban life, while the use of robust reinforced 1680D ballistic nylon material guarantees an always streamlined contour and safe fit to the passenger seat or carrier.

Features

- Backpack shoulder straps
- Retroreflective details
- Zipper management
- 2 outer pockets
- 5 D-rings
- Carrying handle
- Reinforced 1680D ballistic nylon material
- 13 l / 33 x 22 x 36 cm / 1,260 g

Included

- Slipstream tail bag
- Waterproof inner bag
- 4 fitting straps
- 4 bungee straps
- 2 backpack shoulder straps
- Adhesive protective foil

Cargobag

The Cargobag fits almost all sport, sport-touring and adventure-touring bikes and is suitable for long weekend trips. For more storage: exterior bungee tie-downs are included for versatile mounting options or optional Tentbag attachment.

Features

- Retroreflective details
- 2 outer pockets
- Covered zippers and handle compartment
- 4 strong metal buckles and 2 D-rings
- 2 exterior bungee tie-downs
- 1680D ballistic nylon material
- 50 l / 70 x 45 x 40 cm / 1,600 g

Included

- Cargobag tail bag
- Waterproof inner bag
- 4 fitting straps
- 2 tie-down straps
- 2 license plate straps
- Adhesive protective foil

Speedpack

90 liters of maximum storage space make the Speedpack one of the largest motorcycle soft bags currently available. The generous tail bag made from shape retaining, reinforced ballistic nylon material fits various motorcycle types and comes with its own set of removable side bags.

Features

- Retroreflective details
- Self-supporting construction, compressible, fits 2 helmets
- 4 outer pockets
- 2 detachable side bags, attached with strong Velcro® straps
- Covered zippers
- 4 strong metal buckles and D-rings
- Reinforced 1680D ballistic nylon material
- 75-90 l / 75 x 60 x 32 cm / 5,140 g

Included

- Speedpack tail bag
- 2 side bags
- 3 waterproof inner bags
- 4 fitting straps
- 2 tie-down straps
- 2 license plate straps
- Shoulder strap
- Adhesive protective foil

KOBRA handguards

The impact-resistant handguards made from polypropylene plastic offer maximum protection from the elements and stone-chipping. The full-wrap aluminium frame offers protection in crashes or sustained off-road riding.

Features

- Bike-specific aluminium frame for super strong 2-point mounting to handlebar and internal handlebar thread
- Bike-specific 1-point mounting available
- Easy mounting of handguard shell to aluminium frame
- Handguard shells made of impact-resistant polypropylene plastic

KOBRA handguard kit	
Applications	sw-motech.com

2-point mounting

KOBRA handguards with 2-point mounting system are available for various models. The strong and full-wrapped aluminium frame guarantees extra safe mounting and best fit.

1-point mounting

KOBRA handguards are also available with universal or bike-specific 1-point mounting. The mounting point is either directly to the handlebar or to the handlebar end.

Extension and LED indicator set for KOBRA handguards

The optional extension made from impact-resistant plastic extends KOBRA if needed. Optional LED indicators ensure improved visibility in traffic while being perfectly integrated with the handguard form.

Accessories

1	Extension for KOBRA handguards	2 pcs. 50 % more protection. Plastic. Black.	HPR.00.220.30100/B
2	LED indicator set for KOBRA handguards	2 pcs. 16 LEDs/1 watt each. 12 V. Resistor set HPR.00.220.30700/B needed on bikes w/o original LED indicator.	HPR.00.220.30000/B
3	Resistor set for 1 watt LED indicators	2 pcs. For 10/20 watt indicator. 15 Ohm. Universal.	HPR.00.220.30700/B

Honda CRF1000L Africa Twin

Engine guard

Protection on or off the road, our durable aluminium engine guards will prevent major damage from stone chips and collisions. State-of-the-art production technologies ensure perfect fit without compromising the motorcycles ground clearance. The attachment to original frame mounting points provides a secure fit and easy installation.

Features

- Safe and easy fitting to original mounting points without drilling and welding
- Bike-specific design for best fit
- Including mounting hardware
- Made from heavy-duty aluminium

Tip

Bike-specific adventure sets include TRAX ADV aluminium cases, EVO carriers, ALU-RACK, engine guard and crash bars.

Engine guard	
Extension for engine guard	
Applications	sw-motech.com

Brushed aluminium engine guard

The perfectly suited BMW R nineT Scrambler engine guard is constructed using a 4 mm thick aluminium plate. The design of this guard allows air circulation for the engine block.

Engine guard with powder coated or anodized side protectors

Some engine guards, like Honda NC750, include black powder coated side protectors that wrap around the engine block to provide both bottom and side protection while adding a serious look to the bike.

Front spoiler

Front spoilers not only look good but provide additional protection. For some models, like KTM 1290 Super Duke GT, the front spoiler is available in matching powder coated colours.

Engine guard extension

The front engine guard extension provides additional protection for valuable parts. The guards are made from bushed and powder coated aluminium and can be used with or without SW-MOTECH engine guard.

Menschen. Länder. Abenteuer. Motorrad-Reisen.

Honda CRF1000L Africa Twin

Crash bars

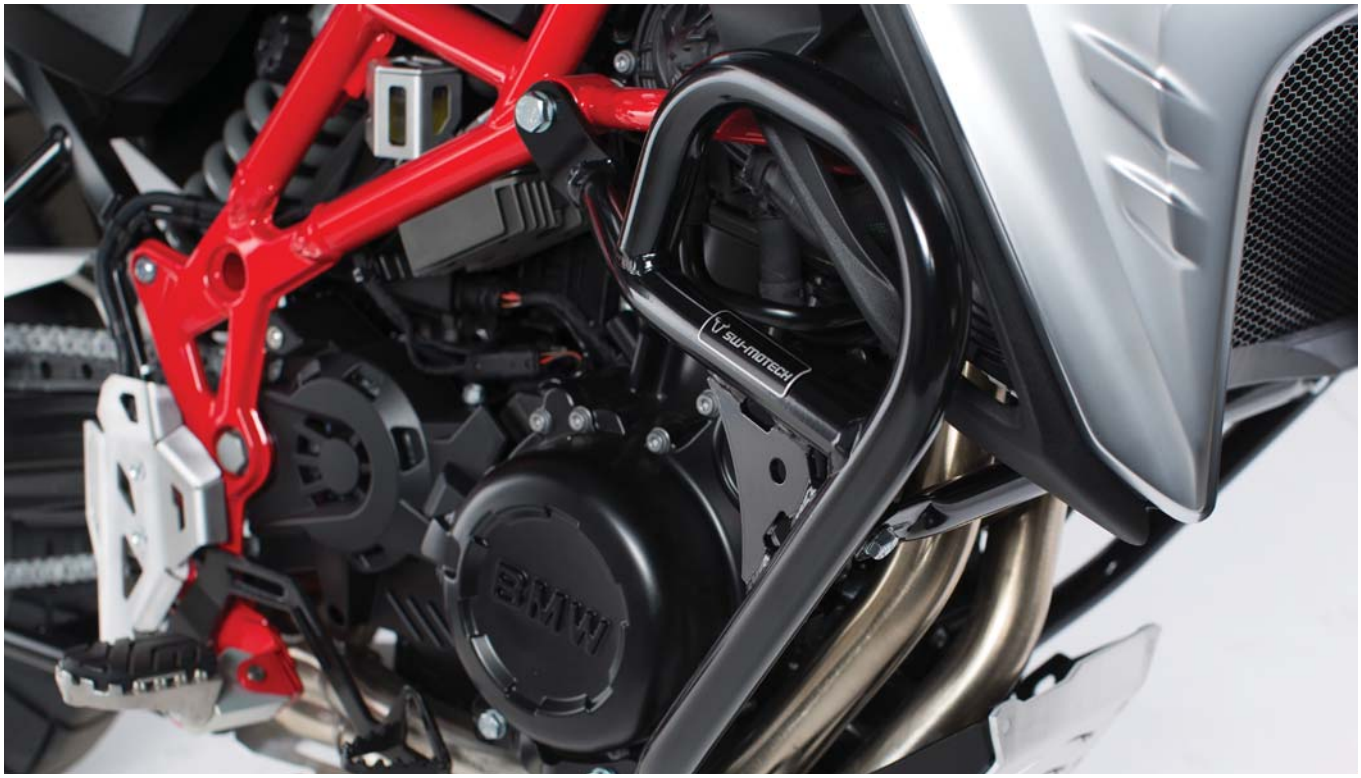
Whether adventure or street bike: crash bars from SW-MOTECH provide the necessary increase in protection for tank, fairing and other components. The protective frames are custom built for each motorcycle model. This way the crash bar can play well with the bikes design without compromising riding and cornering quality.

Carefully designed mounting elements ensure easy and secure installation without drilling, welding or cutting. Depending on the motorcycle model, we offer crash bars and upper crash bars in different materials and colours.

Tip

Bike-specific adventure sets include TRAX ADV aluminium cases, EVO carriers, ALU-RACK, engine guard and crash bars.

Crash bars	
Applications	sw-motech.com



BMW F 800 GS

Yamaha XSR 700

Crash bars – adventure or clean look

SW-MOTECH crash bars are ideally suited for each motorcycle model. Large or subtle crash bars are designed to provide maximum protection, optical integration and high-quality fit for adventure or street motorcycles.

BMW R 1200 GS

Upper crash bars

Durable upper crash bars protect tank and fairing while the tough-built constructed bars easily mount to SW-MOTECH crash bars or to the motorcycle's original crash bars. Depending on the model, the bike-specific bars are available as powder coated steel or stainless steel version.

KTM 1290 Super Duke GT

Powder coated steel crash bars

Available for various models with 22 or 27 mm steel tube diameter with black, silver or orange powder coated finish to prevent corrosion caused by the elements. Surface finishing is done by SW-MOTECHs state-of-the-art production plant in Brno, Czech Republic.

Honda CRF1000L Africa Twin

Stainless steel crash bars

The durable bars are constructed of heavy-duty 2.5 mm stainless steel to protect engine and important components from damages caused by either debris on the road or a crash. The blasted and electropolished stainless steel bars create a unique look and guarantee corrosion protection even with damages.

BMW R 1200 R

CX carbon fiber crash bars – limited edition

SW-MOTECH was the first manufacturer that presented a carbon fiber crash bar for motorcycles. The extremely durable crash bar was crafted in cooperation with CDT Group and offers superior tensile strength at half the weight of metal crash bars, a premium quality impact resistant surface finish and a slick aerodynamic design.

Frame sliders

Additional protection in case of an accident: CNC milled slider pads are made from abrasion-resistant polyamide and help to prevent damage to the motorcycle and get easily replaced. Compared to conventional frame sliders, the streamlined form of the SW-MOTECH frame slider guarantees a significantly better sliding effect in case of crashing.

Frame slider kit	
Applications	sw-motech.com

Axle sliders

Axle sliders offer additional protection for drive shaft or swing arm. The pads radius reaches 50 millimeters, providing a large impact area for best force distribution possible. Separately sold for front or rear axle as bike-specific single slider or set.

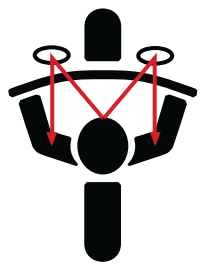
Centerstand assist grip	For centerstand.	Applications: sw-motech.com

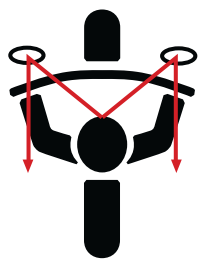
Mirror extension

Mirror extensions provide a better view of traffic behind by increasing the distance of the mirrors from fairing and handlebar. Different configurations support the integration in the appearance of enduro, street or racing bikes.

Mirror extension	
Applications	sw-motech.com



Blocked view without extension



Free view with extension

BMW only

Mounted to mirror thread / black powder coated steel / up to 6.6 cm lateral relocation / free access to switches

Mirror thread

Mounted to mirror thread / black anodized aluminium / up to 4 cm height increase and up to 4 cm lateral relocation

Profile extension

Mounted to fairing / machined polyamide material / up to 4 cm lateral relocation

Hinge extension

Aluminium / up to 4 cm lateral relocation

EVO lights

For the new EVO lights, SW-MOTECH has chosen a strong partner for renowned companies in the automotive industry. EVO lights represent outstanding design, high-quality standards and reliable water and dust protection. The long life LED technology guarantees trouble-free and maintenance free operation for years.

Features

- Strong aluminium housing, black powder coated
- Trouble-free and maintenance-free operation through wear-free LED, consuming significantly less power
- Outer diameter: 7.1 cm
- Water and dust proof (IP69)
- Input voltage: 12 V DC, connects directly to the motorcycle battery, no changes on the motorcycle electric necessary
- Weatherproof and illuminated handlebar switch for easy handling

EVO fog light

- LED: 12 W
- Luminous flux: 1,050 LM
- ECE test mark: ECE R19 F3

EVO high beam

- LED: 12 W
- Luminous flux: 800 LM
- ECE test mark: ECE R113 Rev.2

Universal clamps for crash bars

Bike-specific mounts

EVO high beam

EVO high beam lights are ideal for riding long distances in on/off road conditions where maximum beam distance with narrow dispersion is desired to increase visibility and safety.

EVO fog lights

EVO fog lights with broad dispersion create more safety and better visibility in bad weather conditions and increase your visibility to on-coming traffic.

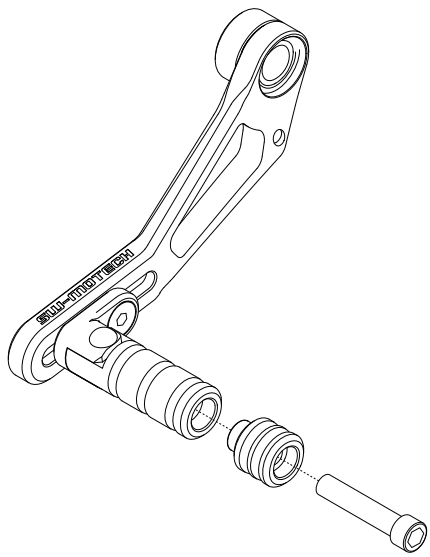
Spring-loaded folding pegs to prevent breakage in minor drops



Optional 15 mm extension for gear lever

EVO footrest

The new EVO footrest enhances stability, comfort and traction under a variety of conditions. Pivotable, teethed elements offer 36 possible settings. Individual adjustment for height, position and angle guarantee best ergonomics possible.

Features

- Easy installation to original mounting points
- 36 position settings (front, back, top, down, angle)
- Strong connection due to teethed and bolted elements
- Marks facilitate symmetric adjustment of both sides
- Made from electropolished and corrosion resistant cast stainless steel
- Profile with rounded edges offer excellent grip
- Removable rubber insert with increased surface area (ca. 8 x 5 cm) for more support and comfort
- All mounting hardware included

EVO footrest	
Applications	sw-motech.com

Footrest

SW-MOTECH footpegs are made from high-grade, corrosion-resistant stainless steel and are ideal for touring and off-road use. The textured surface provides superior traction and the massive platform increases comfort and stability. The affordable height adjustable pegs can be mounted in original height or 15 mm lower than the factory position to increase leg room. The pegs are also hinged to fold back in case of a tip over. The hinge is made from high-strength aluminium alloy.

Footrest	
Applications	sw-motech.com

Footrest extension for Honda CRF 1000L

SW-MOTECH exclusively designed a footrest extension for the new Africa Twin to enlarge the contact area for more control and comfort. The CNC milled aluminium profile measures 59 x 86 mm and features a strong construction, sole-friendly grips and a great design.

Removable GPS mounts

Bike-specific GPS mounts get installed in the handlebar area to allow instant attachment and removal for GPS or multimedia device and reduce vibrations to mounted devices. All bike-specific and shock-absorbent GPS mounts are designed to fit handlebars, crossbars or other mounting points in the cockpit area to ensure a clear view to the instruments. The top section pivots for optimal viewing angle and is compatible with various GPS devices and SW-MOTECHs Navi Case Pro.

Features

- GPS mount made from powder coated steel
- Bike-specific design for best fit
- Removable, pivotable and shock-absorbent
- Multi-piece GPS mount and mounting material included in delivery

GPS mount	
Applications	sw-motech.com

Handlebar GPS mount

Removable and pivotable handlebar GPS mounts get installed directly to the handlebar and guarantee a clear view to the mounted device.

Cockpit GPS mount

A bike-specific and powder coated steel bracket serves as mounting base for GPS mount and device in the cockpit area. Mounted to original mounting points, these GPS mounts ensure reliable and exact fit.

Crossbar GPS mount Ø 10/12, 16 mm

Some motorcycles offer ideal GPS mounting options to crossbar or windshield mount in the cockpit area. Therefore we offer removable GPS mounts with clamps for crossbars with diameter 10/12 mm or 16 mm.

Universal kits

Universal kits are designed to safely and securely attach gadgets and accessories to your motorcycle. SW-MOTECH offers a vast line-up of attachment options for GPS device, smartphone or GoPro camera. All kits include a 1" ball for M6 or M8 thread, mirror thread mount or mounting clamp. The mounting clamp fits handlebars with diameter 22, 28 mm or 1". The pivotable RAM arm allows almost infinite adjustment to achieve the perfect viewing angle. Besides a water-resistant Navi Case Pro, universal kits provide either a GPS or GoPro camera mount.

Features

- Complete set for mounting GPS devices, smartphones or GoPro camera, no additional accessories for mounting necessary
- Ball and 3" RAM arm for individual positioning
- 1" ball for M6 or M8 thread, mirror thread or mounting clamp
- Mounting clamp for handlebar with diameter 22, 28 mm or 1"

Navi Case Pro

The water-resistant Navi Case Pro features a touch sensitive screen cover and an integrated sun visor. The water-resistant zippers seal out moisture to protect devices and internal Velcro® straps secure the device in the padded interior.
Navi Case Pro is available in three sizes

Features

- Touch sensitive screen cover
- Shape retaining body with reinforced base plate
- Cable port
- Circumferential sealed zipper with zipper garage
- Removable foam inlay
- Compatible with optional SW-MOTECH GPS mounts, universal kits, clip adapter and RAM systems

Safe mounting

The durable universal plastic base plate with hole pattern is compatible with optional SW-MOTECH GPS mounts, universal kits, clip adapter and RAM systems.

Easy use cable port

The Navi Case Pro features a cable port to power electronic gadgets. Power supply options are listed from p.120.

Smart interior

Internal Velcro® straps secure the device in the removable padded interior to keep it in place.

Navi Case Pro S	For devices up to 146 x 83 x 38 mm.	BC.GPS.00.007.10000
Navi Case Pro M	For devices up to 131 x 96 x 38 mm.	BC.GPS.00.008.10000
Navi Case Pro L	For devices up to 156 x 111 x 38 mm.	BC.GPS.00.009.10000

Hardcase for smartphones

Water-resistant hardcases for smartphones combine all weather protection with a versatile mount that can be pivoted for use as a navigation device. Shielded cable ports and a soft silicone interior ensure that the smartphone is well protected from vibration, dust and dirt. The hardcases are designed with a camera window that protects the camera lens and a touch screen friendly screen cover.

Features

- Sturdy hard shell for smartphones
- Pivoting 360° mount
- Touch screen friendly, water-resistant screen lid
- Vibration damping silicone interior for best fit
- Covered charging and headphone ports
- Compatible with optional SW-MOTECH GPS mounts, universal kits, clip adapter and RAM systems

Universal electric kit

The universal electric kit allows power supply of electric accessories through cigarette lighter outlet on almost all motorcycles. The kit includes also two brackets for mounting the cigarette lighter outlet on handlebars with M8 or M10 screws or through a screw cap directly into the fairing. The also included USB plug allows power supply of electronic devices without special charger.

Features

- Universal cockpit power supply with splash-proof cigarette lighter outlet
- To mount on handlebar or fairing
- Connects directly to the motorcycle battery
- USB power output up to 1,000 mA / 5 V
- Included in delivery: cigarette lighter outlet with cable harness and fuse, USB adapter, 2 mounting brackets, mounting material
