Season
2017

INTRODUCTION

The View From The Top

Much of the motorcycle industry knows us only as an adventure outfitter. In truth, we're much more than that. Because of recent developments with core suppliers, we've expanded to include bike-specific products for not just ADV machines but sport and retro motorcycles as well. This allows us to be the one-stop outfitter for an even broader range of makes and models. Chances are, if you sell it, we make or distribute accessories for it.

How broad is that range? The all new SW-MOTECH Legend Gear is designed specifically for cruiser and urban/retro bikes. It's a line made up of stylish and durable saddlebags, tank bags, and tail bags, many with bike-specific integrated mounting systems for the utmost in safety and convenience. R&G is now offering a number of pieces for cruisers, and our DENALI lighting systems are a perfect fit for all riders looking for better nighttime lighting and increased conspicuity. Our bike-specific and universal mounting systems cover virtually every modern streetbike. All of this is in addition to our industry-leading products for adventure and sport-touring bikes, where we've literally made a name for ourselves.

An important thing to remember: If you stock our brands, you can outfit virtually every kind of motorcycle without having to take on a whole new brand at your store, which is a major benefit for multi-line dealerships. Not only do you give your customers more choice, you now have the opportunity to sell high-profit accessories to owners of bike brands you don't currently sell. If you have only OEM accessories, those are opportunities lost.

Bottom line: Our growth philosophy hinges on providing a wider variety of high-quality accessories while streamlining the dealer experience with opportunities to reduce your costs, more effectively order and display parts, and increase your profits. We're investing toward that end, with a new National Sales Manager (see page 22) and a new distribution point in Reno, Nevada, that provides fast shipping to the west coast. Now no dealer in the continental US is more than three days away from fresh stock!

Finally, we're separating wholesale operations into a new division called Twisted Distributing. Before the end of the year, you'll have access to a separate website (twisteddistributing.com) that offers a dedicated and enhanced dealer experience. We're also working to improve our dealer communication with regular updates on new programs and product information.

We believe these new programs, along with our customer-first philosophy, best-in-class product lineup, and detailed fitment and installation documentation, will keep us moving forward into 2017. Why don't you come along for the ride?

Erik Stephens
Founder and CEO

Honda CRF1000L Africa Twin

1. TRAX ADVENTURE Top Case

38L of tough, waterproof protection for your belongings. Includes tie-down points, carry handles, and an internal storage bag.

ALK.00.733.15000

2. TRAX ADVENTURE Side Cases

Rugged, weatherproof, and offered with a range of functional accessories, these cases are available in 37- and 45-liter capacities.

ALK.00.733.10000L

3. Mirror Extenders

Widen the mirrors for an unobstructed view of what's behind you.

SVL.00.505.10500.B

4. Quick-Release GPS Holder

This vibration-damping mount is compatible with most handlebar crossbars.

GPS.00.646.10500.B

5. Brake Reservoir Guard

This sturdy brushed-aluminum guard protects the rear brake reservoir from debris, boots, and other threats.

SCT.01.622.10000

6. Crash Bars

Made of 21-27mm tubular steel with a durable powdercoat finish, these bars fit seamlessly with the SW-MOTECH skid plate.

SBL.01.622.10002.B

7. Skid Plate

This low-profile, heavy-duty welded aluminum plate offers ample coverage with convenient access for oil changes.

MSS.01.622.10000

8. Centerstand

A stable, secure stand made of stout tubular steel. No modifications needed for installation.

HPS.01.622.10000.B

9. Quick-Lock EVO Tank Ring

Mounts the tank bag without straps or magnets, allowing quick on/off and no damage to the gas tank.

TRT.00.640.30400B

10. Handlebar Risers

Made of powdercoated aluminum alloy, these risers raise the bars by 30mm. Use the original top clamp or the matching SW-MOTECH one.

LEH.00.039.20300

11. Chain Guard Extension

This laser-cut aluminum guard covers the exposed section of chain to prevent contact with the rider and deflect road debris.

KTS.01.622.10000.S

12. Header Pipe Guard

The semi-flexible brushed stainless steel guard contours to the pipe curve for a precise fit and stylish protection.

KRS.00.169.10.P

13. Sidestand Foot Enlarger

Doubles the surface area to provide better stability on soft or uneven terrain.

STS.01.622.10000

14. Quick-Lock EVO Side Carriers

Remove the side cases, and the racks, in just seconds without tools. Will fit most popular brands of hard luggage (using adapter hardware).

KFT.01.622.20200.B

1

2

1. Daypack Quick-Lock EVO Tank Bag

Our most popular tank bag holds up to 9 liters of essential gear.
BC.TRS.00.108.2000

2. Engage Quick-Lock EVO Tank Bag

A compact 7-liter bag designed for motorcycles with steeply sloped gas tanks.
BC.TRS.00.107.2000

3

4

3. City Quick-Lock EVO Tank Bag

The perfect fit for sport-touring and adventure bikes with narrow bars and sloped tanks.
BC.TRS.00.104.2000

4. 12-Volt EVO Tank Ring Upgrade Kit

Electrifies SW-MOTECH EVO tank rings, providing a power source inside the tank bag.
TRE.00.640.10200.B

5. Drybag 350 Tail Bag

SW-MOTECH's modular line of dry bags includes a range of sizes with an easy, secure mounting system.
BC.WPB.001.10001

5

6

6. Cargobag EVO Tail Bag System

50 liters of rugged storage, designed to fit around the tail sections of many bikes.
BC.HTA.00.306.1000

7. Blaze Sport Saddlebag System

The slickest, easiest way to mount saddlebags on almost any motorcycle.
HTA.01.740.11200

Triumph Street Triple

SW-MOTECH[®]

SW-MOTECH produces the world's toughest and most thoughtfully designed luggage, protection, and ergonomic accessories for motorcycles, specializing in adventure, sport, and retro-style bikes. Headquartered in Rauschenberg, Germany, SW-MOTECH is a certified OEM partner for the development and production of accessories for Ducati, Honda, Kawasaki, KTM, Suzuki, Yamaha, and other brands.

Yamaha FZ-07 Moto Cage

1. Spindle Sliders

These swingarm protectors double as bobbins for hook-style paddock stands.
RG.SS0042.BK

2. Front Axle Sliders

Durable, easy-to-install protection for forks and brake calipers.
RG.FP0154BK

3. Bar End Sliders

While protecting bars and levers during a drop or crash, these also promote sliding to minimize front end damage.
RG.BE0076BK

4. Aero Style Frame Sliders

Designed to wear — not shatter or snap off — and slow the bike down in a crash.
RG.CP0365.BL

5. Tail Tidy

A lightweight, durable tag bracket that provides a sleeker look for the tail.
RG.LP0159.BK

6. Kickstand Shoe

Enlarges the original footprint by up to 100% for better stability on soft or uneven ground.
RG.PKS0047.SI

Swingarm Protectors (not shown)

Easily fitted into the rear axle, these protect the swingarm, brake caliper, brake disc, and sprocket.
RG.SP0059.BK

Elevation Front Paddock Stand (not shown)

RG.PADD.FRONT.BK

Elevation Rear Paddock Stand

RG.PADD.REAR.BK

The new Elevation series of modular paddock stands are easy to break down and transport, but are strong and sturdy when assembled. Made of heavy-duty tubular steel with durable wheels.

2

3

4

5

6

7. Crank Case Cover

Slim, lightweight, and sturdy, these engine case covers simply bolt on over the original casings. They were developed and crash tested in collaboration with select race teams.

RG.ECC0171.BK

8. Clutch Cover

RG.ECC0172.BK

9. Radiator Guard

Made of pressed aluminum in a seamless frame, this protects that expensive radiator from flying debris.

RG.RAD0171

10. Stainless Steel Radiator Guard

More rugged than the aluminum version, this guard is also impervious to rust.

RG.SRG0028.SS

11. Rear Peg Blanking Kit

For tidying up the rear subframe when the passenger peg hangers are removed. Includes the reservoir bracket.

RG.BLP0032.BK

12. Mirror Risers

These aluminum risers raise the mirrors by 45mm with a simple screw-on installation.

RG.MR0003BK

13. Fender Extender

Provides additional protection for a bike's coolers, downpipes, and fairing panels.

RG.FERG0014.P

14. Micro LED Indicators

Sleek replacements for the stock turn signals; can be fitted to the front or rear of the bike.

RG.RG371

Carbon Kevlar Tail Sliders (not shown)

Made of Dupont Kevlar-reinforced carbon fiber, these protect the corners of a motorcycle's rear cowl.

RG.TLS0016C

Boot Guard Kit (not shown)

These precision-cut, bike-specific pieces have a unique texture for a durable buffer between boot and bike.

RG.EZBG902BL

1

2

3

1. Oil Cooler Guard

This pressed-aluminum panel protects the vulnerable oil cooler and adds a dash of style.

RG.OCG0005BK

2. Exhaust Header Pipe Grille

Made of aluminum mesh in a seamless frame, this protects expensive header pipes from rocks and debris.

RG.DG0019BK

3. Mirror Blanking Plates

Neat little blanking plates that fit over the mirror mounting point. These can be fitted in seconds.

RG.MBP0014.BK

4. Engine Case Slider

Made of strong, high-density nylon, this slider protects one of the most vulnerable parts on a bike.

RG.ECS0049BK

4

5

5. Carbon Engine Case Sliders

These sliders are reinforced with DuPont Kevlar on the impact face for maximum wear resistance.

RG.ECS0068.C

6. Shocktube Shock Protector

A stretchy, waterproof, vented tube made of bonded neoprene. Not to be confused with a neck tube.

RG.SHOCK2BK

6

7

7. Offset Cotton Reel Rear Axle Sliders

A replacement axle block moves the slider back for better protection and additional clearance from the muffler.

RG.CR0054BK

8. Carbon Fiber Tank Sliders

Made of DuPont Kevlar-reinforced carbon fiber with a self-adhesive backing and bike-specific fit.

RG.TS0017.C

8

9

9. Tank Traction Grips

These precision-cut pieces are made from low-profile synthetic rubber for solid, non-abrasive grip.

RG.EZRG110BL

R&G is the world's #1 brand for motorcycle crash protection, offering a broad range of styling and protection accessories to fit modern bikes. Often the first to market for new models, R&G raises the bar by using laser scanning, CNC manufacturing techniques, and aircraft-grade metals. They are the first company ever to receive insurance approval for crash protectors, leading to discounts on motorcycle insurance for consumers.

D4 LED Auxiliary Light Kit

Four blazing LEDs: two flood beams, two spot beams. Lights up everything in your path for 550 feet.

TT-D4

D2 Dual-Intensity LED Auxiliary Light Kit

The perfect blend of daytime visibility and nighttime vision, plus the convenience of low and high beams.

TT-D2

DM LED Auxiliary Light Kit

Piercingly bright when viewed head-on, these compact lights make a huge impact on your visibility.

TT-DM

SoundBomb Compact Dual-Tone Air Horn

120 screaming decibels of "Can you hear me now?", in a stealth unit about the size of a sandwich.

TT-SB.10000.B

SoundBomb Split Dual-Tone Air Horn

Get the earsplitting sound of the Compact horn with a two-part design for more mounting options.

TT-SB.10100.B

SoundBomb Mini Electromagnetic Horn

This quick and easy, plug-n-play upgrade is twice as loud as a typical stock motorcycle horn.

TT-SB.10200.B

PowerHub2 Power Distribution Module

Safely connect up to six electronic devices to your bike without melting your battery. Bonus: it's CAN-Bus safe!

ELC.00.30000

SoundBomb Wiring Adaptor for BMW OEM Harness

Creates a true plug-n-play connection, with no need to modify the original factory wiring.

DNL.WHS.10100

Power Plug for BMW GPS Connector

Use this CAN-Bus-safe adapter to install 12V accessories without having to tap, cut, or solder any OEM wiring.

DNL.WHS.10000

COMPLETE MOUNTING SOLUTIONS

1. Crash Bar Mount for 22mm-29mm Tubes
LAH.00.10300.B

1

Crash Bar/Frame Mount for 32mm-38mm Tubes
LAH.00.10400.B

AdMore Lighting specializes in auxiliary signal lighting with universal applications for license plate frames, handguards, and hard luggage. AdMore is the only company that produces specific kits to fit inside the lenses on GIVI plastic cases.

Barkbusters makes use of more than 30 years of motorcycle industry experience and enthusiasm to develop the best bike-specific handguards on the market. These handguards integrate a hardened aluminum backbone with a stylish, easily replaceable plastic guard.

DENALI designs and manufactures complete lighting and electronics solutions for powersports applications, including ultra-bright LED auxiliary lights, horns, power blocks, and bike-specific light mounts and wiring harnesses.

Inspired by military tactical gear, DrySpec luggage includes 100% waterproof welded dry bags, mil-spec panniers, and storage accessories. DrySpec's modular solutions can be adapted to fit a wide range of powersports vehicles.

Kaoko is a world leader in friction-type, bike-specific throttle controls. Installing in less than 5 minutes, the units are compatible with heated grips, as well as many OEM and Barkbusters handguards.

HEX Code, a division of HEX Microsystems, is the creator and developer of the GS-911 diagnostic tool for BMW motorcycles. By continually adding functionality and upgrading support features, HEX Code offers the most advanced aftermarket diagnostic tool for BMWs.

Mefo tires are engineered and developed in Germany, using input from racing and endurance competitions to continually improve design and performance. Mefo offers a range of terrain-specific tires for dual-sport bikes.

Mitas has long been a world leader in off-road and dual-sport tire technology, specializing in long-lasting, high-grip tires with aggressive tread patterns. Their tire development incorporates decades of research from enduro, motocross, and speedway racing.

With deep roots in racing, MRA is the windshield specialist for all types of motorcycles. Precision-manufactured in Germany, MRA windscreens are known for their perfect fit and excellent turbulence reduction.

NoNoise began by creating specialized ear protection for the Holland police force. The unique ear plugs use a patented ceramic filter to remove damaging noise levels while allowing clear communication.

Scottoiler manufactures award-winning automatic chain lube systems and maintenance fluids that preserve and protect key components of motorcycles. Their chain oiler is now an official BMW Motorrad accessory for select bike models.

TechSpec's Gripster Tank Grips offer racetrack-ready performance and showroom-ready styling. Made of thick rubber with a soft surface, they provide solid grip without causing damage to skin or riding gear.

LEGEND GEAR

SW-MOTECH GERMANY

The new Legend Gear line combines classic styling with state-of-the-art design for the perfect balance of form and function. The bags are made of synthetic Napalon leather and waxed canvas with a versatile, military-inspired fastening system and bike-specific, quick-release saddlebag mounting racks. The line includes tank, tail, saddle, and accessory bags that look at home on both vintage and modern retro bikes.

A Word From Our Brand-New, Still-Under-Warranty National Sales Manager

Hello, I'm Jeff Rose and I'm proud to say that I've just joined the team at Twisted Throttle as National Sales Manager. These are exciting times at Twisted Throttle, with our massive catalog of motorcycle accessories gaining new pieces every day, a growing support staff, and new programs for you, our valued dealers, to make the absolute best of the upcoming sales season.

How did I get here? After more than eight years at Bose Corporation, where I worked in tech support, supervised the call center, and worked as a Project Manager within the Customer Experience Center, I joined Triumph Motorcycles America as a Regional Sales Manager, supporting dealers in New England and Upstate New York. I've been riding for 16 years and have owned nothing but Triumphs (so far), with my latest a Daytona 675, currently outfitted for track days.

As I suggested, these are exciting times to be involved with Twisted Throttle. In addition to my position here—a new one for the company—I'm proud to announce that we're adding two Regional Sales Manag-

ers, one east and one west, who will be responsible for dealer sales as well as providing product details to you. Our goal is to be helpfully outgoing, offering information on booking programs, supporting product education, and answering any questions you might have. Our products are second to none, and we want our dealer support to be just as good.

Time is always an important variable, so to expedite shipping, we've opened a new warehouse in Reno, Nevada, with 80% of the most popular products expected to be volume stocked and ready for shipment by the end of the year. This facility ensures delivery to the west coast within 1 to 2 days.

Call center support is available six days a week.

We're proud to be distributing the award-winning Scottoiler automatic chain oilers.

BENEFITS OF PARTNERING WITH US:

- **Free shipping on all wholesale orders over \$349***
- **Maximum drop ship fee of \$9***
- **Free displays**
- **Extra 10% discount for in-store demo bikes**
- **MAP policy to protect your margins**
- **Pricelists available via most dealer management systems**
- **2-year Twisted Throttle warranty on all products, even if the manufacturer's warranty is shorter**

*Reduced rates available with qualifying orders.
