1 - Multipurpose button
2 - Multipurpose LED
3 - Volume adjustment button +
4 - Volume adjustment button -
5 - Recharge / Multipurpose socket and accessories
6 - Bluetooth® control panel connection guide
7 - Speaker
8 - Microphone

ASSEMBLY OF THE SLIDE SUPPORT WITH REMOVABLE CLIP
Take the support and fasten the best place to fasten it to the side of the helmet. Insert the rear part of the clip into the helmet and couple the other part on the outside. Insert the screws and tighten gently.

ASSEMBLY OF THE ADHESIVE SLIDE SUPPORT
Take the adhesive support and look for the best side and place to position it. Clean and de-grease the part of the helmet where you are going to stick the support (do not use any detergents that could damage the helmet’s finish). Remove the protective film from the bi-adhesive, and apply the support to the helmet. As the support will not be able to be moved once stuck onto the helmet, take great care with its positioning, when applying.

Check position and move the support if necessary, by sliding it along. Tighten the screws with the screwdriver supplied.

for installation of audio kit refer to the help available www.interphone.cellularline.com

Congratulations on your purchase of the Interphone F3S. Before using this product, we recommend you carefully perform the operations outlined in the Quick Guide.

1 - Charging
Plug the battery charger into a 110/220 V socket.

The LED lights up red during charging. When charging is complete, the LED turns green.

When charging is complete, disconnect the unit from the charger by pulling out the plug, and also pull out the charger from the mains socket.

2 - Setup
With Interphone F3S off, press and hold the multifunction button for approx. 8 seconds until the LED flashes blue and red alternately.

3 - Connecting to a phone
From the Bluetooth menu on your mobile phone (such as the sample iPhone menu shown below), search for a new device.

When the device is found, select Interphone F3S. Connection will take place automatically after a few seconds. If a password is required, enter 0000.

4 - Telephone function
To answer a call, when a call comes in, the speaker produces a warning sound or the telephone's ring: to answer, simply press and release the MFB button.

To end a call, simply press and release the MFB button.

Vocal call: some telephones allow you to make a vocal call simply by pressing and releasing the MFB button.

To refuse a call, press and hold the MFB button for approximately 4 seconds.

To refuse a call in VOX mode, follow the instructions given in the VOX FUNCTION section.

Volume adjustment: to adjust the volume, press the buttons Volume + or Volume - depending on the desired volume level.

5 - Music remote control
Play/Pause: press and release the MFB button twice.
Rew: press and hold the Volume - button for 3 seconds.
FF: press and hold the Volume + button for 3 seconds.
Volume: To adjust the volume, press the buttons Volume + or Volume -, depending on the desired volume level.

6 - Telephone + stereo function (A2DP)
With this combination, the connection to the telephone function takes priority.

- During a telephone conversation, the playing of music is not permitted.
- When listening to music, you can answer a telephone call received. Press and release the MFB button to enable the call. At the end of the call, music will automatically continue playing from the exact point at which it had stopped.
- To refuse a call, press and hold the MFB button for approximately four seconds.
- To adjust the volume, press the buttons Volume + or Volume -, depending on the desired volume level.

N.B.: in telephones equipped with musical players, and therefore which include a Stereo (A2DP) profile, the Telephone + Stereo (A2DP) function controls.

7 - Intercom - Pairing
After having turned the two Interphone F3S off, press and hold the MFB buttons on both until the warning light alternates red and blue flashes. This will take about 8 seconds.

When both LEDs flash red and blue alternately, press and release the MFB button on one of the two Interphone F3S.

The two Interphone F3S are connected when both LEDs show a fixed blue light.

8 - Intercom function
To enable intercom function: to enable the conversation in an intercom profile, press the MFB button on one of the two Interphone F3S.

The two Interphone F3S are connected when both LEDs show a fixed blue light.

To disable intercom function: to disable intercom function, simply press and release the MFB button.

9 - Bluetooth specifications
Bluetooth®: v2.1 EDR
Supported profiles:
- Headset
- Handsfree
- A2DP
- AVRCP
- SBC

3 - Connecting to a phone
From the Bluetooth menu on your mobile phone (such as the sample iPhone menu shown below), search for a new device.

When the device is found, select Interphone F3S. Connection will take place automatically after a few seconds. If a password is required, enter 0000.

4 - Telephone function
To answer a call, when a call comes in, the speaker produces a warning sound or the telephone's ring: to answer, simply press and release the MFB button.

To end a call, simply press and release the MFB button.

Vocal call: some telephones allow you to make a vocal call simply by pressing and releasing the MFB button.
