Installation Instructions

PLEASE READ BEFORE INSTALLING

TWISTED THROTTLE products should be installed by a qualified, experienced motorcycle technician. If you are unsure of your ability to properly install a product, please have the product installed by your local motorcycle dealer. TWISTED THROTTLE takes no responsibility for damages caused by improper installation.

Medium strength liquid thread-locker (i.e., "Loctite") should be used to secure all screws, bolts, and nuts.

All screws, bolts, and nuts should be checked after driving the first 30 miles (50 km) to ensure that all are tightened to the proper torque.

All screws, bolts, and nuts, including all replacement hardware provided by TWISTED THROTTLE should be tightened to the torque specified in the OEM maintenance manual for your motorcycle. If no torque specifications are provided in the OEM maintenance manual, the following torques may be used:

M5.....3.5 ft-lbs (5 Nm)
M6.....6.5 ft-lbs (9 Nm)
M8.....16 ft-lbs (22 Nm)
M10.....32 ft-lbs (43 Nm)
M12.....55 ft-lbs (75 Nm)

1 Mounting Bracket

GPT.06.498.002-01

Qty.....1

2 Hex Head Screw

M8 x 45.....DIN 7991

Qty.....1

3 Spacer

Da:20 Di:8.4 h:10

Qty.....1

Step One: Mount the center bracket to the rear mounting point on your top rack.

4 Steel-Rack

GPT.06.498.020

Qty.....1

5 Countersunk Screw

M8x20.....DIN 7991

Qty.....2

6 Lock Nut w/ Flange

M8

Qty.....2

Step Two: Mount the Steel-Rack to the center bracket.

7 Countersunk Screw

M8x65.....DIN 7991

Qty.....2

8 Angled Spacer

GPT.06.498.003

Qty.....2

9 Socket Cap Screw

M6x20.....DIN 912

Qty.....3

Step Three: Place the angled spacers under the front of the rack so the angled side is up and the high point is to the rear. Fasten all bolts to the recommended torque. If you are mounting a Coocase you will need to use the cap screws along with the other Coocase hardware to attach the Coocase plate to the Steel Rack.

Please Read the instructions for the Coocase plate to the Steel Rack.
