SW-MOTECH – A passion for motorcycles

In the 1990s a passion for travel and adventure brings together the three motorcyclists Jörg Diehl, Kai Jockel and Jürgen Swora. During extended trips through Northern Africa the idea to develop a line of travel gear is born, leading to the establishment of SW-MOTECH in 1999. The year 2006 marks the beginning of a close cooperation with the company BAGS-CONNECTION, focusing on the production of soft luggage and led by Achim Kessler. In 2014 the two firms unite under the SW-MOTECH brand.

A perfect combination

Today SW-MOTECH is well known for its expertise in engineering and manufacturing of motorcycle accessories produced using a variety of materials and technologies. The premium brand is among the fastest growing businesses in the market and a well known trendsetter. The product range includes luggage systems, ergonomics, safety, maintenance and customizing products as well as accessories for navigation and electronics.

The company seat spans 10.000 square meters and houses more than 120 employees, an additional 130 colleagues are working at the second production plant in Vojkovice, Czech Republic.

The founders of SW-MOTECH:
Achim Kessler, Jörg Diehl, Jürgen Swora, Kai Jockel

Quality without compromise

Accessories made by SW-MOTECH are built by bikers for bikers. Every product mirrors the designers' and engineers' enthusiasm for motorcycles: Our design team creates premium products, geared towards maximum usability and aimed to create a perfect match for the motorcycle's stock design while emphasizing functionality, quality and safety.

Legend Gear tank bag LT2

An international footprint

With distribution in over 60 countries, SW-MOTECH is among the leading suppliers of motorcycle gear. We supply motorcycle manufacturers and distributors as well as motorcyclists across the globe. An international network of dealerships offers proficient service and advice.

SW-MOTECH maintains long-term international industry partnerships for development and manufacturing of original motorcycle equipment. The company's strength in design and engineering allows SW-MOTECH to continually deliver innovative, quality products, which is key to ongoing success in a challenging market.

++ NEW PRODUCT LINE ++

LEGEND GEAR

SW-MOTECH GERMANY

One for the road

State-of-the-art materials with a classic style: The Legend Gear luggage line combines an ageless ‘retro’ design with choice materials and a versatile fastening system. A combination of coated canvas sailing material with robust Napalon synthetic leather supports the vintage desing with the toughness needed for daily use on the road.

Saddle Strap SLS

Saddle strap SLS provides safe mount of saddlebags LS1 and LS2 to standard seats with passenger seat.

FEATURES
> Bags can be attached in different heights
> Circumferential mounting strap provides safe fit
> Fastenings for accessory bags

Art.No.: BC.HTA.00.403.10000

Material: Napalon synthetic leather
Dimensions: 39 x 21 cm (w/d)

Saddlebag LS1/LS2

A taste of vintage: Legend Gear saddlebags LS1 and LS2 will face every trip with ease and can be fastened to the versatile saddle strap SLS.

FEATURES
> Available in two sizes (9.8 l/13.5 l)
> Waterproof inner bags

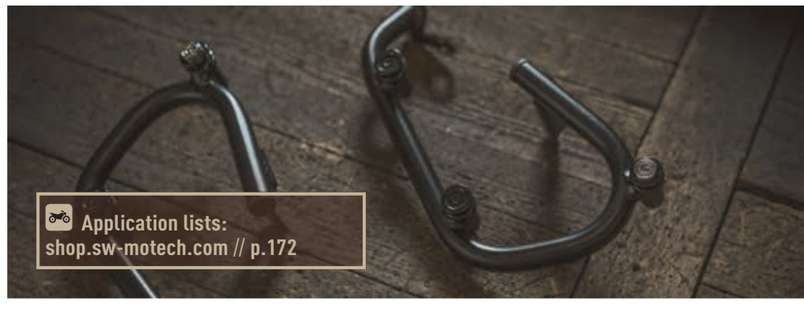
Art.No.:
BC.HTA.00.401.10000 (LS1)
BC.HTA.00.402.10000 (LS2)

Saddlebag LS1/LS2
Material: Napalon synthetic leather & coated canvas, PU inner lining
Dimensions: 14 x 26 x 31 / 14 x 35 x 31 cm (w/h/d) **Capacity:** 9.8 l / 13.5 l

Side Carrier SLC

The custom-fit bike-specific side carrier allows easy and safe mounting on original mounting points to the bike. Even the quick lock system provides rapid attach/detach fitting the carrier mount is exceedingly reliable.

FEATURES
> Carrier for side bag LC1/LC2
> Can be installed on both sides or one side only
> Compatible with side bag quick-release fastening



Application lists:
shop.sw-motech.com // p.172

Side Bag LC1/LC2

Plays well with steel: The side bags LC1 and LC2 are equipped with a convenient quick release fastening system for Legend Gear steel side carriers SLC.

FEATURES
> Quick-release fastenings for side carrier SLC
> Available in two sizes (9.8 l/13.5 l)
> Waterproof inner bags

Art.No.:
BC.HTA.00.401.10100L (LC1, left side)
BC.HTA.00.402.10100L (LC2, left side)
BC.HTA.00.401.10100R (LC1, right side)
BC.HTA.00.402.10100R (LC2, right side)

Side Bag LC1/LC2
Material: Napalon synthetic leather & coated canvas, PU inner lining
Dimensions: 14 x 26 x 31 / 14 x 35 x 31 cm (w/h/d) **Capacity:** 9.8 l / 13.5 l

Tail Bag LR1

This convenient combination of tail bag and fully fledged backpack recommends itself as a versatile companion for any tour – no matter whether by bike or on foot.

FEATURES
> Universal fit for bench seat and rack
> 4 point strap mounting
> Backpack function
> Slide-in carrying straps
> Fastenings for accessory bags

Art.No.: BC.HTA.00.404.10000

Tail Bag LR2

The 48 liter tail bag LR2 comes with lots of stowage space for extended trips. The mounting system offers additional mounting of accessory bags while four fastening straps secure the bag on the seat or rear rack.

FEATURES
> Universal fit for most motorcycle models
> Can be used on bikes with overhead exhaust pipes
> Anti-skid bottom
> Fastenings for accessory bags

Art.No.: BC.HTA.00.405.10000

Tank Bag LT1

Powerful magnets provide secure mounting for the tank bag LT1 even on rough roads. Due to its base the tank bag can be easily removed in seconds.

FEATURES
> Fitting most steel gas tanks
> Soft foam base
> Zippered capacity expansion
> Front cable feed-through
> Robust carrying handle
> Rain cover
> Fastenings for accessory bags

Art.No.: BC.TRS.00.401.10000

Material: Napalon synthetic leather & coated canvas, PU inner lining
Dimensions: 18 x 10 x 25 cm (w/h/d)
Capacity: 3.0 l - 5.5 l

Tank Bag LT2

Back to the roots: This compact strap-on tank bag LT2 attaches to the bike by classic strap mounting. Two clip buckles guarantee fast access to the gas cap. No additional cut outs necessary.

FEATURES
> Overlapping lid offers protection against moisture and dirt
> Front cable feed-through
> Robust carrying handle
> Rain cover
> Fastenings for accessory bags

Art.No.: BC.TRS.00.402.10000

Material: Napalon synthetic leather & coated canvas, PU inner lining
Dimensions: 15 x 18 x 30 cm (w/h/d)
Capacity: 5.5 l

Accessory Bags

The accessory bags can be fastened to almost all Legend Gear products. A perfect mix of design and function matches all Legend Gear products.

FEATURES
> Can be attached to Legend Gear tail bags, saddlebags and tank bags
> Also compatible with Saddle Strap SLS and Tank Strap SLA
> Military grade fastening system
> Rain cover included in delivery

Art.No.:
BC.TRS.00.403.10000 (LA1)
BC.TRS.00.404.10000 (LA2)
BC.TRS.00.405.10000 (LA3)

Accessory Bags LA1/LA2/LA3
Material: Napalon synthetic leather & coated canvas, PU inner lining
Dimensions: 12 x 6 x 18 / 15 x 5 x 18 / 9.4 x 2 x 18 cm (w/h/d)
Capacity: 0.8 l / 1.2 l (LA1/LA2)

Tank Strap SLA

The Legend Gear tank strap is meticulously tailored to each motorcycle model. This way the vintage style tank strap achieves a safe fit and can perfectly complement the motorcycle's stock design.

FEATURES
> Motorcycle model specific design provides a perfect fit
> Can also be used to hold Legend Gear accessory bag LA1/LA2/LA3

Material: Napalon synthetic leather
Width: 10.5 cm

Application lists:
shop.sw-motech.com // p.172

DAKAR Panniers Set

Reliable companion

DAKAR panniers are built for durability and water resistance. The sturdy side bags and waterproof inner bags are suited for nearly any environment – from the extended off road trip to daily city driving.
The panniers are available either with a motorcycle specific support arm (for use with DAKAR panniers only) or in a version with strap fittings that can be mounted on nearly all current side carrier systems.

(1) MODEL SPECIFIC VERSION

2 DAKAR panniers, 2 waterproof inner bags, 2 support arms (model specific)

Application lists
shop.sw-motech.com // p.172

(2) UNIVERSAL VERSION

2 DAKAR panniers with universal carrier fastenings, 2 waterproof inner bags
Art.No.: BC.HTA.00.741.11000/B

Capacity: 64 l (per set)
Dimensions: 25 x 35 x 45 cm (w/h/d) per bag
Weight: 1.600 g per bag
Material: ABS reinforced 1680 D ballistic nylon

1 **MODEL SPECIFIC VERSION:** Slide pannier onto support arm from the bottom until it snaps into place. Secure DAKAR with velcro strap across pillion. Employing the original support arms allows mounting close to the bike; the panniers have been developed to also fit bikes with overhead exhausts.

2 **UNIVERSAL VERSION:** Strap fastenings fitting most carrier brands, among others SW-MOTECH, GIVI and Hepco & Becker.

BLAZE® Panniers Set

Traveling light

The lightweight BLAZE panniers perfectly integrate into a naked bike's or sport motorcycle's styling. At the same time the compact saddlebags, made from tough 1680D ballistic nylon, come with a fastening tailored for the best driving quality possible: Bike model specific support arms offer a safe fit and avoid swaying even when driving at high speeds. With its QUICK-LOCK system, mounting and removal of the BLAZE panniers is just a matter of seconds.

FEATURES

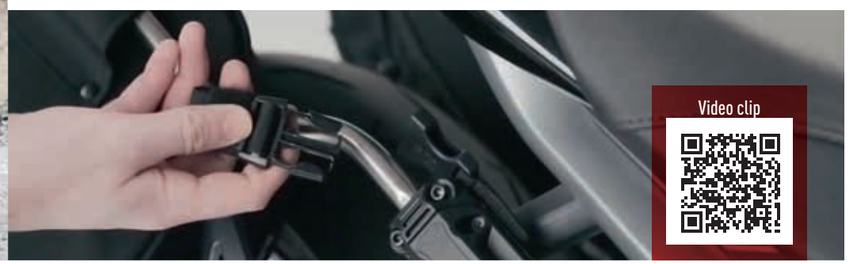
> Removable support arm
> QUICK-LOCK locking slider
> Zippered volume expansion
> Retroreflective details
> Top loading function
> Outside pocket with side loading function

INCLUDED

2 BLAZE pannier bags, 2 waterproof inner bags, model specific mounting kit consisting of 2 QUICK-LOCK frame mounts and support arms useable for BLAZE system only

Application lists
shop.sw-motech.com // p.172

Capacity: 28-42 l (per set)
Dimensions: 30 x 44 x 14 cm (h/w/d)
Weight: 1.200 g (per bag)
Material: 1680D ballistic nylon



AERO ABS Side Case Set

Best of both worlds

With a wall thickness of 2.5 millimeters AERO side cases combine a saddle bag's low weight with the robust construction of touring luggage. The high quality lamination mirrors the craftsmanship that went into the making of the ABS reinforced case, while flexible luggage straps inside the cases and the original QUICK-LOCK carrier system facilitate easy handling. The carriers themselves also can be removed within seconds.

FEATURES
> Integrated lock system > Retroreflective details > 2.5 mm wall thickness

INCLUDED
2 AERO side cases, 2 waterproof inner bags, luggage retention straps, 2 zipper locks
Art.No.: BC.HTA.00.675.11000/B

Please note: QUICK-LOCK EVO side carrier and/or adapter needed for mounting (p.32, 35)

Capacity: 50 l (per set)
Dimensions: 24 x 38 x 54 cm (w/h/d) per bag
Weight: 1.900 g (single pannier)
Material: ABS laminated with 600D MBD polyester

TRAX
ADVENTURE

TRAX ADVENTURE ALU-BOX

Ready for adventure!

The TRAX ADVENTURE has been built without compromise: The touring case system offers durability and seal tightness against water and dust as well as easy handling.

The tough aluminum cases with a wall strength of 1.5 millimeters accept any challenge – whether you take your luggage on a rough country ride, a relaxed road cruise or for a short trip. The robust cases also are suited for a sporty driving style: For optimal lean angle the side cases sport a large chamfer, corner caps made of glass-reinforced plastics offer additional protection.

TRAX ADVENTURE cases are available with a capacity of 37, 45 or 38 liters. The cases are anodized (silver design) or powder coated (black design) against oxidation and abrasion.

INCLUDED
> TRAX ADVENTURE aluminum case
> Pre-installed mounting rails
> Lid restriction rope

Please note: ALU-BOX lock cylinder sets (p.28), QUICK-LOCK EVO side carrier (p.32), adapter kits (p.35) and ALU-RACK top case carrier (p.36) needed for installation.

Application lists

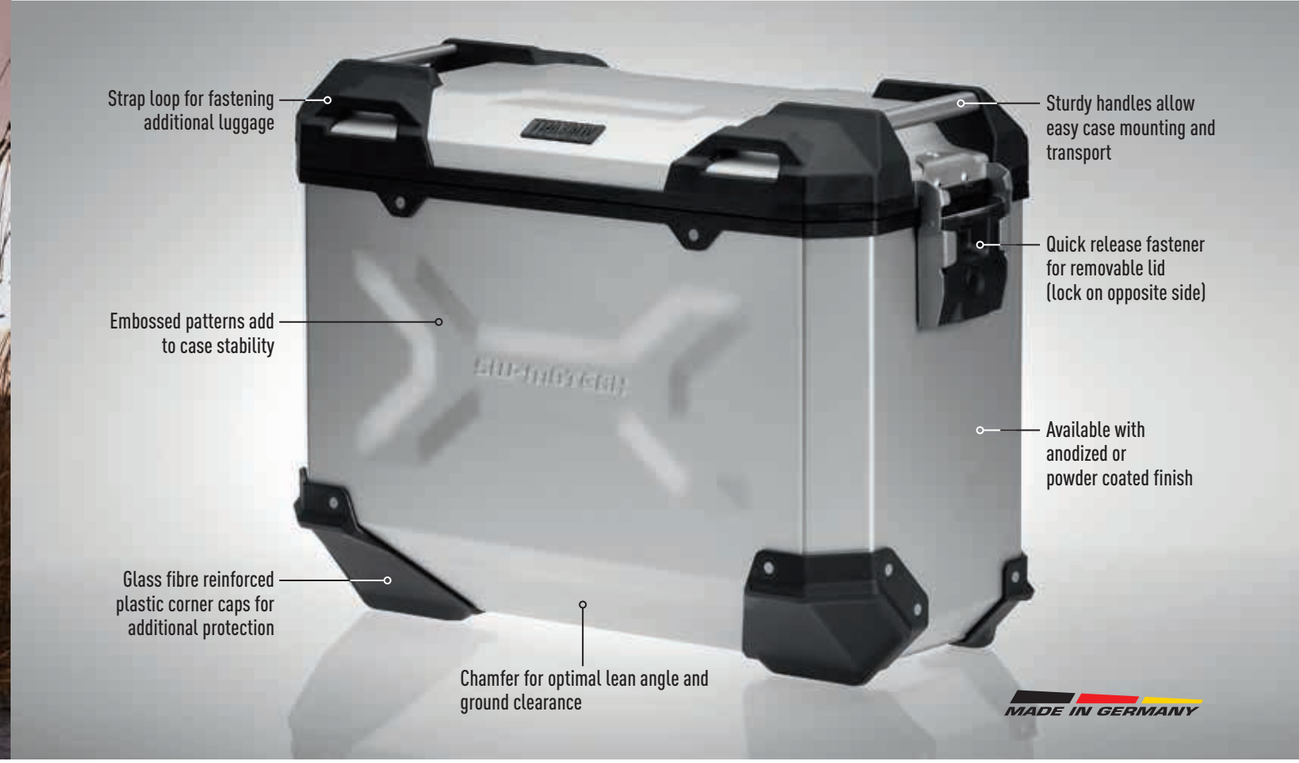
BEST BUY
TRAX ADVENTURE case set with 2 side cases, side carrier, adapters and locks
TRAX GEAR+ touring and camping accessories (p.28/29)

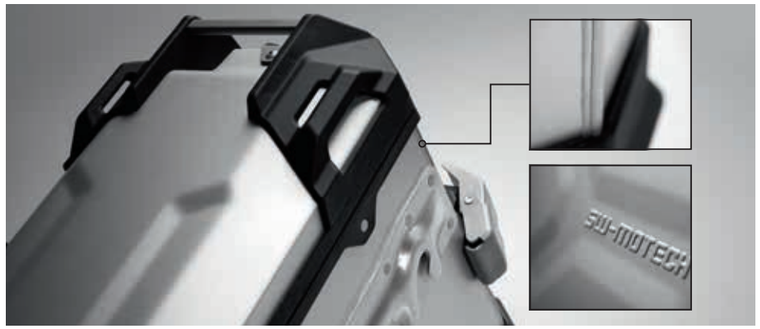


Sealed against water and dirt

TRAX ADVENTURE has been constructed to withstand water and dust alike. The body's sealing gasket, welding seams, even rivets and screws have been designed for one purpose: To keep weather and driving conditions alike from having any impact on the luggage.

Sturdy companion for any adventure

Robot welding the case body produces thin seams that provide high stability. The deep-drawn lid is reinforced by beading and allows easy case mounting and transport due to its strong aluminum handles, while embossed pattern lines add to 1.5 mm wall stability. In addition the pre-installed mounting rails serve as a strengthening frame for the case. Four large and robust tie-down points provide safe footing for additional luggage.



Built for easy handling

The touring case sports easy-to-use latches and a completely removable lid with anodized aluminum handles. The aluminum boxes also come with an opening limiter and a convenient quick release fastener; they can easily be adapted to the versatile QUICK-LOCK EVO carrier system.

Putting a stop to corrosion

TRAX ADVENTURE cases are available in silver and black color. In the silver version outer and inner case surfaces are protected from corrosion, scratches and aluminum residue by anodizing, the black case version is powder coated.

TraX® EVO ALU-BOX

Lightweight classic

With a weight of only 4.4 kilograms at a luggage capacity of 37 liters, TraX EVO is the lightest motorcycle aluminum case available. Its tough aluminum side walls and the deep-drawn lid provide the necessary stability to cut a fine figure off the road, while the attractively priced cases are light enough to be used on a spontaneous trip. The versatile QUICK-LOCK EVO carrier system allows easy mounting and removal of case and carrier.

FEATURES
> 4 tie-down points
> Heavy-duty hinges with angle stop
> 1.5 mm thick aluminum walls
> Stainless steel latches
> Glass fiber reinforced plastic corners, hinges and sealing frames
> Deep-drawn lid
> Available in powder coated black or natural aluminum finish

Needed for installation: ALU-BOX lock cylinder sets (p.28), QUICK-LOCK EVO side carrier (p.32), adapter kits (p.35) and ALU-RACK top case carrier (p.36).

T-RaY Top Case

Best value for money

Lots of storage space at a highly competitive price: The splash proof T-RaY top cases come with up to 50 liters of capacity and can carry one or two helmets. With the included adapter plate the robust cases fit STEEL-RACK and most luggage racks. The separately sold QUICK-LOCK adapter plate allows mounting to the ALU-RACK. The touch of one button is enough for latching and locking.
Please note: For best handling we recommend the use of an ALU-RACK together with a QUICK-LOCK adapter plate.

FEATURES
> Splash proof sealing
> Inboard locking system
> Easy-to-clean surface
> Sizes L and XL with custom-molded inner liner
> Back rests available separately

INCLUDED
Top case, universal adapter plate for standard luggage racks, 2 keys

Capacity: 28 to 50 l, depending on case model
Weight: 4.080 to 7.000 g
Material: Case body made of durable plastics

QUICK-LOCK EVO Side Carrier

The side carrier

The most versatile side carrier available: The QUICK-LOCK EVO system combines convenient handling, perfect fit and high flexibility. Within seconds the carriers – that can be adapted to hold cases from different brands – are installed or removed.

After the one-time installation of the nearly invisible mounting brackets (A), attaching and removal of the sturdy steel carriers with the original quick release fasteners is just a matter of seconds (B/C). The carriers are individually constructed to complement specific motorcycle models.

FEATURES
> Can be used with or without ALU-RACK and QUICK-LOCK adapter plate for easy combination of top and side case
> Attaches and detaches from the bike in seconds
> Robust, powder-coated tubular steel construction.

INCLUDED
2 motorcycle model specific QUICK-LOCK EVO side carriers, mounting material

Please note: Separately sold adapter kits needed for case mounting

Side carrier adapter kits

QUICK-LOCK EVO side carriers come equipped with mounting points. This way adaptation kits can easily be attached. For most cases only a few mounting brackets need to be installed, adaptation of some brands might require the use of an adapter plate.

QUICK-LOCK EVO Profile Side Carrier

The combination of GIVI V35 and KAPPA K33N cases with the QUICK-LOCK EVO system allows reliable, flexible and fast case and carrier mounting: QUICK-LOCK EVO profile side carriers consist of a strong steel construction with black powder coating, according adapter kits are already included in delivery.

The system can be used as a stand-alone installation or in combination with ALU-RACK top case carriers.

FEATURES
> Case and carrier mounting and removal within seconds
> Compatible to GIVI V35/KAPPA K33N cases and ALU-RACK top case carrier
> Made of 4 mm, black powder-coated steel

INCLUDED
2 motorcycle model specific QUICK-LOCK EVO profile side carriers, adaptation plate, mounting material

ALU-RACK

Basis

The ALU-RACK is a first choice product when looking for a premium rear rack: The versatile and elegant carrier, made from powder coated aluminum, offers a perfect fit and in an instant accepts QUICK-LOCK adapter plates for all established top case brands.

To install virtually any top case system on an ALU-RACK a variety of separately sold adapter plates is available (see below).

FEATURES
> Individually engineered for specific motorcycle models
> Produced with highly precise CNC technology
> Available in silver and black color
> Can also be used together with QUICK-LOCK EVO side carriers

INCLUDED
Bike specific ALU-RACK, mounting material, undercarriage included where necessary

Application lists
shop.sw-motech.com // p.172

ALU-RACK

ALU-RACK Luggage Rack Extension

This luggage rack extension is the ideal solution to secure large pieces of soft luggage. The durable aluminum plate fits any ALU-RACK. By using the QUICK-LOCK system the extension can be attached and removed within seconds.

The ALU-RACK extension offers an especially broad holding platform and lots of tie-down points for large-sized luggage and tail bags. Three QUICK-LOCK fasteners provide safe mounting for the sturdy aluminum bridge, black powder coating prevents corrosion and protects from scratches.

SEAT-RACK

The customized solution

The SEAT-RACK was built to replace the pillion seat of motorcycles without a carrier. The versatile platform seamlessly integrates into the motorcycle's silhouette and can also be used to increase the carrying capacity of machines that already sport a rack.

FEATURES

> Tailored to the bike model
> Easily fastened to pillion mounting points
> Fastenings for pillion mount included and preinstalled
> Can be opened with the bike keys
> Provides mounting for soft luggage and QUICK-LOCK tank bag adaptation
> 4 mm thick aluminum plate
> Foam seals keep moisture and dirt out
> Perfect weight distribution
> No modification of bike or pillion seat necessary

INCLUDED

Black powder coated SEAT-RACK aluminum carrier, foam rubber sealing, mounting material

QUICK-LOCK EVO Tank Ring

The original QUICK-LOCK EVO system offers the perfect link between tank bag and motorcycle: The tank bag carrier combines easy handling with sturdy mounting and is tailored to the individual motorcycle model. The use of glass fiber reinforced nylon provides a reliabile fit and prevents plastic residue.

FEATURES

> Bike model specific
> Does not interfere with refueling
> Fast removal pull-cord release
> Constructed with fiber glass reinforced plastic, black

QUICK-LOCK EVO Electric Tank Ring

Power up your tank bag

GPS, digital camera and smartphone have become a common view on motorcycle trips. In order to provide a charging station on the bike we have developed the QUICK-LOCK EVO Electric system.

It provides power for the tank bag by tapping into the motorcyle's electrical system and can be purchased separately or together with a tank bag. The system consists of an electric top ring for QUICK-LOCK EVO tank bags, combined with an electric upgrade kit for QUICK-LOCK EVO tank rings.

FEATURES
> Safety mechanism: Electricity only flows when tank bag is mounted, avoiding short circuits
> Maximum operating current of 7.5 amps
> Vibration-proof
> Spring-loaded contacts
> Top ring and electric kit made from black, fiber glass reinforced plastic

INCLUDED

QUICK-LOCK Tank Ring

For ION tank bags

Our QUICK-LOCK tank rings serve as the carrier platform for QUICK-LOCK ION tank bags. For a secure installation on the bike we offer motorcycle model specific tank rings, made of glass fiber reinforced nylon, as well as adaptations for bikes without tank ring mounting option.

Just like the premium QUICK-LOCK EVO system (p.44) the QUICK-LOCK tank ring provides a fast and safe mounting point for tank bags. Its original quick-release fastener and durable attachment also allow the driver to easily remove and attach ION bags for refueling and easy luggage handling.

FEATURES
> Does not interfere with refueling
> Fast removal pull-cord release
> Different versions for various bikes available

INCLUDED
QUICK-LOCK tank ring, tailored to the specific bike model, mounting screws

Strap Tank Bag Drybag 130

Completely watertight

Made from durable and waterproof Tarpaulin, the Drybag 130 serves as a carefree package for all weather and climate conditions. The soft luggage can easily be cleaned, fixation on the tank is secured by three robust straps. A zipper and two snap buckles provide fast access to tank bag and gas cap.
The welded volume expansion allows easy capacity adjustment without compromising the tank bag's sealing against water and dirt.

FEATURES
> Zippered volume expansion
> Zip fastener
> Top flap serves as map holder
> Retroreflective details
> Velcro for 210 x 297 mm (DIN A4) map holder
> 2 outer pockets
> Tank friendly bottom
> Snap buckles
> Removable padded stowage organizer

Smartphone Drybag/ Tablet Drybag

Our waterproof Drybag device bags for smartphone and tablet PC fit on most QUICK-LOCK EVO tank bags. Durable materials protect your hardware from scratches and also offer flexibility under cold weather conditions. At the same time the display always stays in sight. The large Tablet Drybag offers enough space for a 9.7 inch display. Both containers can also be used together with the tank bag volume expansion.

Art.No. (Smartphone/Tablet Drybag):
BC.TRS.00.152.10000
BC.TRS.00.151.10000

The device Drybags can easly be fastened to the tank bag D-rings (see above) and velcro (tank bag rear side).

Tank bag GPS mount

Within seconds the GPS Mount (1) can be attached to QUICK-LOCK EVO tank bags (except Micro and Yukon 90). The pivotable mounting plate (2) is compatible to most motorcycle GPS systems as well as Navi Case Pro device bags from SW-MOTECH. This way the driver always has the navigation display in clear view – without losing sight of the cockpit instruments.

Please note: Navi Case Pro not included in delivery

Art.No.: BCK.GPS.00.010.100

BEST BUY
Navi Case Pro device bags (p.104)

Map Holder

The Map holder easily fits most of our tank bags and serves as an additional compartment to put maps in DIN A4 (210 x 297 mm) format on display. The handy accessory, made from sturdy 1680D ballistic nylon, offers a variable velcro strap and two strong buckles for use on expanded bags as well as reinforced cord locks for secure fastening on the tank bag.

Art.No.: BC.TRS.00.150.10000

The locks are attached to the tank bag D rings

The velcro fastening easily fits expanded tank bags

Cargobag

Size matters

Alone the Cargobag already cuts a fine figure on motorcycle and scooter alike. But the elegantly designed tail bag also offers a lot of lashing points for additional luggage like the tent bag (see pic below), that recommend the Cargobag for nearly every pillion seat.

FEATURES
> Retroreflective details
> Zippered lid mesh compartment
> 2 side compartments
> Padded carrying handle
> Covered zippers and handle compartment
> 4 sturdy metal mounting buckles
> 2 large lashing areas

INCLUDED
Tail bag, waterproof inner bag, 4 mounting straps, 2 support straps for license plate holder mounting 2 compression straps, adhesive protective foil
Art.No.: BC.HTA.00.306.10000

Capacity: 50 l
Dimensions: 70 x 45 x 40 cm (w/h/d)
Weight: 1.540 g
Material: 1680D ballistic nylon

BEST BUY

Cargobag (p.74) with tent bag

ROK™ straps

The sturdy and durable ROK™ straps provide a stout support for your luggage: Designed specifically for motorcycles, ATVs and snowmobiles, the straps are easy to use, hold cargo under constant tension and have no protruding hooks that can cause scratches. The fastening loops on both ends can be secured to just about anything, while the mid-strap buckle can easily be adjusted as needed.

INCLUDED
Set of 2 ROK™ straps,
available in two lengths

Zipper Lock

This zipper lock helps to keep the contents of any SW-MOTECH tail bag and other luggage with compatible zippers safely locked away: Just attach it to the paired zipper pulls and engage the lock.

Luggage Cable Lock

Keeping your luggage safe: The cable lock is ideal for securing tank and tail bag to the bike. Simply loop the cable around the frame of the bike, then through the eye on the cable lock and attach it to the bag's zipper tags and/or D-rings.

MOTORRAD REISENDER

ERIK PETERS

Sometimes it's easy to forget that the best can be right in front of you. After a six month journey through Southeast Asia and Japan motorcycle traveler Erik Peters finally heeded the call of Europe's roads again: During his recent trips through Spain, France and Scotland Erik's Yamaha XT1200ZE Super Ténéré covered a total of 20.000 kilometers. Erik also used the opportunity to put the new TRAX ADVENTURE touring cases through their paces. His verdict: "Simply the best."

Based on these eventful journeys Erik now is preparing his upcoming multivison roadshows, after which the year 2016 once again will see him on an extended adventure trip outside of Europe. Erik is sure its destination will come as a surprise even to his long-time fans.

Drypacks

Get organized!

From kayak sports straight to your tank or carrier: Our Drypacks, available in four sizes from 4 to 20 liters, offer a compact size and help you to organize items in tail bag or touring case. At the same time when used in non-waterproof luggage the bags provide protection from moisture.

The handy bags consist of 210D Tarpaulin with a water resistant inner layer. A strong bottom, coated on both sides, offers great durability while the high frequency welded seams resist moisture and dust alike. A beltline hook allows fastening the Drypacks to the outside of luggage, seat or rack.

COCKPIT POWER SUPPLY 108

UNIVERSAL ELECTRIC KIT 110
ELECTRIC MOTORBIKE ADAPTERS 112

The perfect mount for GPS device, Smartphone or camera: Our broad range of holders, bags and hard cases makes it easy for you to find the solution best suited to your bike. Whether you're looking for a pivotable holder, vibration dampening features, QUICK-LOCK functionality or just a weatherproof case – on the following pages you will find functional and innovative mounting systems.

Universal GPS Mount Kits

One kit for every purpose

For secure mounting of GPS devices, cameras, smartphones and more in the motorcycle cockpit we offer universally applicable mounting kits with a broad variation of installation possibilities, ranging from mirror thread mounting to RAM arm.

All kits will fit handlebars with ø 22 mm, 28 mm, 1". The included ball fits mounting clamp, M6- or M8 thread or GPS mount for mirror thread. All single components except mounting clamp and Navi Case Pro will be listed on page 100/101 "Device Mount System".

THREE COMPONENTS FOR THREE BASIC MOUNTING OPTIONS ON MOTORCYCLE

Rubber inserts included in delivery

Ball, RAM arm 3" and universal mount installed to handlebar

Mirror thread GPS mount

Non-shock Bar Clamp GPS Mount

Shock absorbing GPS mount

With this shock absorbing mount all motorcycle GPS devices can be installed to the handlebar. At the same time the carefully crafted aluminum clamps, available for a variety of bar tube diameters, fit well into the styling of different motorcycles. The adapter can also be used together with our Navi Case Pro product line, combination with the GPS clip adapter is possible as well.

Rubber inserts between installation clamp and device mount provide reliable protection against shock and vibration, a pivoting joint allows adjustment of the viewing angle.

QUICK-LOCK GPS Mount

Tailored to each bike model

A sturdy installation and good visibility in the motorcycle cockpit – for this purpose we tailor our GPS mounts to selected bike models. This way the display always stays in sight without impairing the view to the cockpit instruments.

QUICK-LOCK functionality allows effortless installation and removal of the GPS mount. The pivoting mounting plate fits TomTom Rider and Garmin zumo®, Navi Case Pro and smartphone hard cases. Rubber dampening protects the hardware from shock.

INCLUDED
Powder coated adapter plate, pivotable QUICK-LOCK mount, bike specific base plate

Navi Case Pro

The splash water proof Navi Case Pro GPS bags come in three sizes with a fresh design and lots of features.

The translucent lid membrane, shielded by a sun visor, allows easy manipulation of touch surfaces. Velcro straps in the padded bag help to secure the valuable hardware. The all around zipper gives easy access to smartphone or GPS, while a rubber coating prevents moisture entry.

The durable plastics base plate is prepared with a hole pattern for SW-MOTECH GPS mounts and RAM components.

FEATURES
> Touch sensitive lid membrane
> Sturdy case with reinforced base plate
> Cable port
> Zipper tag fixation
> Foam inlay
> Compatible with GPS mount, RAM system and GPS clip adapter

MATERIAL
TPU plastics base and sun screen, back and front made from shape retaining EVA

INCLUDED
Navi Case Pro, sun visor, foam inlays

COCKPIT POWER SUPPLY

UNIVERSAL ELECTRIC KIT 110

ELECTRIC MOTORBIKE ADAPTERS 112

POWER SUPPLY THROUGH:

A – 12 V DIN SOCKET 112

B – CIGARETTE LIGHTER SOCKET 114

C – QUICK-LOCK EVO ELECTRIC TANK BAGS 116

Always charged

GPS and smartphone have become a common sight in touring or street bike cockpits. In order to help you to supply your gear with power 'on the go', we offer nearly every imaginable connection to charge and operate electrical devices at the handlebar or inside the tank bag. All components are carefully selected to ensure longevity and reliable operation on the bike.

Universal Electric Kit

Your mobile charging station

The Universal Electric Kit supplies accessories like smartphone or GPS with power. It consists of a cigarette lighter socket with USB power port. Included are handlebar clamp brackets fitting most handlebars. It is also possible to fasten the socket into the fairing via a threaded coupling.

- BAR CONVERTERS 128
- VARIO BARBACKS / VARIO BARBACK CONVERTERS 129

Finding the right stance on the bike is an important factor for relaxed driving, low reaction times and healthy back and joints. Ergonomics therefore for us means to provide all means for the driver to reach the best riding position possible.

Gear Levers

In a class of its own

Gear levers made by SW-MOTECH combine choice materials and innovative design with ergonomic fit: Machined from high quality aluminum alloy the levers offer either steplessly or incremental adjustment. This makes it easy to find the best foot positioning.

FEATURES
> Adjustment in 1, 2 and 3 cm intervals or steplessly adjustable unit
> A spring lock ensures functionality, even after toppling over
> Material: CNC-machined aluminum with HART-COAT® surface treatment

INCLUDED
Gear lever, mounting material

Footrest Kits

The textured anti-traction surface of our adjustable footpegs offers best grip and stability to drivers of dual sport motorcycles, off road and street bikes alike. To help each driver to find the best riding or standing position, the extremely tough and durable stainless steel footrest kits can be installed in two heights.

The removable rubber pad reduces vibration and provides best grip even when driving off road. A sturdy hinge, machined from high-strength aluminum alloy, allows the pad to fold away in case of an accident.

FEATURES

> Large, textured surface
> Removable rubber pad
> Can be installed in 2 height positions on the original footrest mount
> Material: Stainless steel footrest, rubber pad, aluminum hinge

INCLUDED

2 footpegs, 2 rubber pads, mounting material

Universal Bar Riser

Finding the right height

Our broad range of universal bar risers offers a large variety of height adjustments: The ergonomic helpers, that are made from high-grade aluminum alloy, provide additional bar heights from 20 to 50 millimeters.
The robust and climate resilient bar risers fit nearly every motorcycle model with a handlebar diameter of 22 or 28 millimeters.

FEATURES
> Hole spacing 32-38 mm (ø 22 mm) or 37-46 mm (ø 28 mm)
> Available height for handlebars with ø 22 or 28 mm: 20, 25, 30 or 50 mm.
> Handlebars with ø 28 mm providing a height increase of 30 mm
> Powder coated, black or silver
> Material: High strength aluminum alloy

Universal Barback

For a relaxed ride

If you find it difficult to comfortably reach the handlebar, you should consider purchasing a barback. Our durable aluminum barbacks offer a height change of 30 millimeters and shift the handlebar 22 millimeters closer to the driver. This can mean a more relaxed and back-friendly seating position and reduced strain on the arms, resulting in better vehicle control.

FEATURES
> Moves bar position up 30 mm and back 22 mm
> Hole spacing: 32-38 mm (ø 22 mm) or 37-46 mm (ø 28 mm)
> Powder coated, black or silver
> Material: High strength aluminum alloy

Bike Specific Bar Risers

Tailored to your needs

For a broad variety of motorcycle models we offer bar risers that have been specifically tailored to the bike's design. The robust aluminum elements offer a height increase of 20, 25 or 30 millimeters and guarantee a perfect fit. The machine milled bar risers are available with black or silver anodizing and bike-specific ABE.

Vario Barback

Maximum versatility

A highly adjustable bar raiser and barback in one product: Our Vario barbacks allow stepless adjustment of handlebar position towards or away from the driver as well as height adjustment. This provides highest versatility to support a good steering and seating position. Anodized Vario barbacks are available for 22 and 28 millimeter handlebars and as a product version with a 28 millimeter bar converter.
By employing a spacer element the adapters can provide a raise of up to 60 millimeters.

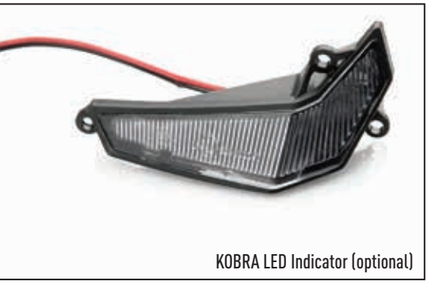
Safety first

Driving without a crumple zone: Safety for motorcyclists plays a special role - whether you go through the sloping curves of a relaxed road cruise or are tackling a tough off road course. Our crash bars, engine guards, frame sliders and handguards are designed to offer the best protection possible for you and your bike. In addition accessories like auxiliary lights and mirror extensions provide better sight and visibility.



KOBRA LED Indicator (optional)

KOBRA Extension (optional)

Aluminum backbone

KOBRA Handguards

Protection from stone chip, weather and in case of accidents: The sturdy aluminum backbone of the KOBRA handguard kit protects the driver's hands during accidents and when toppling over. Replaceable handguards made of shock resistant plastics provide additional shielding against weather, rocks and while driving through rough terrain.

The robust plastic handguard shells can be installed onto the aluminum backbone within moments. Available are closed aluminum backbones with a two point mounting for highest standards on handlebar inside thread and handlebar, one point mounting* to the handlebar also is possible on selected bike models.

As accessories shell extensions that increase the protected area by nearly 50 percent can as well be purchased as LED indicators for good visibility in traffic.

INCLUDED
2 KOBRA handguards, 2 aluminum backbones, motorcycle model specific mounting material, installation instructions

Barkbusters Handguards

Versatile and durable

Fitting nearly every motorcycle model: Barkbusters handguards come in a wide variety of designs – from the shock resistant EGO protector for trial and Enduro drivers to the all-weather handguard BBZ, geared towards touring and sports motorcycles.

The tough aluminum backbone provides protection for the driver's hands as well as brake and clutch levers. For additional protection and weather resistance, plastic handguard shells are installed on the backbone. Depending on the model the protective shells can be ordered in different colors, exchanging the shells is very easy.

CHOOSING THE RIGHT HANDGUARD
Our online shop gives quick access to Barkbusters handguard products for your motorcycle. This way you can easily select the fitting backbones, handguard shells and accessories.

INCLUDED
Mounting kit with 2 aluminum backbones*, 2 handguards, mounting material

*Shells with single clamp mounting delivered w.o. backbone

Offroad

EGO (1)

The toughest handguard on the market: EGO is targeted at trail and Enduro riders that don't shy back from rough terrain. The super strong aluminum backbone together with the replaceable plastic guard offers a compact design to provide best protection even for tight off-road riding.

Suitable for: Enduro, trail, moto cross and mini bikes

⚠ Please note: Will not fit onto handle bars with long clutch and brake levers; JET or VPS handguards can serve as an alternative.

JET (2)

JET handguards sport a heat treated, super strong aluminum back bone in an ergonomic design that allows mounting to machines with long clutch and brake levers. The highly impact resistant plastic guards offer protection from the elements, three axis mounting clamps allow easy installation. Skid plates for the aluminum backbone are available as additional accessories.

Suitable for: Dual-sports, Enduro and trail motorcycles

Handguards for every bike

VPS (3)

This handguard gives dual sports and adventure motorcycles with long clutch and brake levers plenty of space. The mounting kit consists of an extremely durable, ergonomically designed frame made from heat treated aluminum in combination with a shock resistant handguard. Skid plates and bar end weights are available as additional accessories.

Suitable for: MX, Enduro, supermoto, dual-sport, ATV

Storm (4)

Cold weather protection for street bikes: The large handguards offer excellent protection against wind, rain and cold weather. Single point mounting options fit many popular street bikes, the choice between clamp handlebar mounting and bar-end mounting makes installation possible in a few steps.

Suitable for: Street motorcycles, cruiser, naked and touring bikes

CARBON (5)

The elegant CARBON protectors combine a lightweight construction with a functional, modern design. The carbon-fibre handguard will fit nearly all Barkbusters aluminum backbones and can also be used together with VPS and STORM systems.
⚠ Please note: Not recommended for off-road use, will not fit EGO system.

Suitable for: Street, cruiser, naked, touring and adventure motorcycles as well as scooters

Barkbusters Handguard Accessories

The perfect combination

BBZ (1)

BBZ weather handguards have been developed to help drivers of sports and touring motorcycles to keep their hands warm even under blizzard conditions: A large surface with anti-flap design flexes seamlessly around fairing and windscreen. Nevertheless the handguards are suited for most motorcycle models and can also be fitted over existing backbones.
Suitable for: Street, cruiser, naked, touring and adventure motorcycles and scooters.

Bar end weights (2)

In order to reduce handlebar vibration the end weights can be mounted to backbone installations with visible handlebar thread screws, like JET or VPS. The steel weights come with a protective black powder coating and weigh approximately 180 grams each.

Handguard skid plate (3)

Made from black plastic these protective elements shield the outside edge of JET and VPS handguards from scratches.

Bar end plugs (4-10)

The protective caps made of anodized aluminum are designed to minimize grip damage. The bar end plugs are available in black, blue, gold, orange, red, silver and titanium color and include fittings for 14 millimeter alloy bars and 18 mm steel bars.

LED Indicators and position lights (11-12)

Extra bright LED position lights and indicator elements are available for JET, VPS and STORM handguards. The use of durable LED technology – together with a position far from the bike midpoint – combines best visibility in traffic with low power consumption. Indicator lights are ECE test marked. Both LED elements fit handguards alone or combined.

Mirror Extensions

In plain sight

Tired of only looking at your own shoulders in the rear mirror? Our mirror extensions help you to get a better view of your surroundings by increasing the distance between mirror and bike midpoint.
SW-MOTECH mirror extensions are available in different configurations that integrate into a naked or adventure bike's styling as well as into a racing motorcycle's fairing.

Better visibility

Visibility plays a central role for safe riding – especially when fog or dense rain are impairing the field of view. HAWK auxiliary lights help you to see better and to be better seen. The fog and off-road lights are also available as energy efficient and virtually maintenance free LED variants.

1

2

3

4

1-3 HAWK LED fog lights, 2+3 Mounted with light mount set (bike-specific), 4 HAWK light clamp (set includes 2 clamps with inlays for crash bars ø 22/26/27/28 mm)

HAWK Auxiliary Lights

HAWK lights are protected from wind and weather by a solid aluminum housing which is available in silver or black color. Included in delivery are a cable harness with fuse and a splash water proof on/off switch.

HAWK FOG LIGHTS

HAWK fog lights use 2 5W LED or 55W H3 lamps to provide a broad light beam to improve visibility under foggy conditions. For use on European roads no registration or permit is necessary (ECE test mark).

HAWK OFF-ROAD LIGHTS

The focused beam of HAWK off-road lights offers a better field of view while driving off road. Like the fog lights the off-road lights come with either 2 5W LED or 55W H3 lamps each.

VERSATILE MOUNTING OPTIONS

Separately sold mounting sets allow the model-specific installation of HAWK lights on frame elements or fairing. As an alternative we offer light clamps with inlays for mounting the lamps on crash bars with a diameter of 22, 26, 27 or 28 millimeters.

Engine Guards

Playing it safe

Perfect protection from rock chip and ground collision for your engine block: Our engine guards are laser cut from highly durable aluminum alloy and offer sturdy engine protection and ruggedized styling to touring motorcycles, adventure and naked bikes alike.

CNC laser cutting and bending gives the parts a perfect fit without compromising the motorcycle's ground clearance. Mounting the brushed and/or powder coated skid plate, specifically designed for each motorcycle model, to original frame anchor points provides a secure fit and easy installation.

Crash Bars

Elegantly tough

Whether adventure bike or street motorcycle: Crash bars from SW-MOTECH provide the necessary increase in safety for tank, fairing and other components. The protective frames are custom built for each motorcycle model. This way the crash bar can play well with the bike's styling without compromising riding and cornering quality.

Carefully designed mounting elements ensure easy and secure installation without drilling, welding or cutting. Depending on the motorcycle model the bars are available in powder coated steel tubing or stainless steel variants with electro polished surface.

INCLUDED

Sidestand Foot

Improve your footprint

Our side stand foot extensions offer a large contact surface to improve the motorcycle's parking footprint on rough surfaces and soft ground. During the design process our first concern was to provide good ergonomics with high quality components.

The extension is being CNC milled from high strength aluminum alloy, the combination of the anodized aluminum foot with a tough steel mounting provides great durability under all climate conditions. The grooved upper ledge helps the driver to swing out the side stand easily – even while wearing heavy boots.

MATERIAL
High strength aluminum alloy with steel or stainless steel mounting clamps

Centerstands

When new motorcycles are introduced we usually are the first supplier to develop a high quality centerstand. Our tough tube constructions attach to existing frame anchor points and offer best cornering clearance, easy use and a safe stand for maintenance work as well as for parking a loaded bike.

Hint: Use a centerstand to save space and protect your tires while long-term parking.

FEATURES

> Tailored to the motorcycle model for easy installation and optimal ground clearance
> Textured surface allows safe jack up
> Good leverage for easy use
> Powder coated surface
> TÜV-certified

Motorcycle Holidays in the Alps

For nearly 20 years the ‚Let's bike together' hosts are inviting you for biker's luck among the finest road curves in Tyrol, the Dolomites and the Grossglockner. In the beginning they have been the very first professionals in motorcycle vacation. Today they are the first choice for your perfect biker holidays: top facilities, best service!

General Sales Terms and Conditions

General Sales Terms and Conditions of SW-MOTECH GmbH & Co. KG, Ernteweg 8/10, 35282 Rauschenberg, Germany.

Section 1: General, sphere of applicability

(1) These General Sales Terms and Conditions (GSTAC) shall apply to all our business relationships with our customers (hereinafter referred to as the "Purchasers"). The General Sales Terms and Conditions shall apply only if the Purchaser is an entrepreneur (section 14 BGB[1]), a legal entity under public law or a special fund under public law.

(2) The General Sales Terms and Conditions shall apply in particular for contracts governing the sale and/or the delivery of moveable items (hereinafter referred to as the "Goods") without any consideration of whether we produce the Goods ourselves or buy them from suppliers (sections 433, 651 BGB). The General Sales Terms and Conditions shall apply in the particular version concerned as a framework contract also for future contracts governing the sale and/or delivery of moveable items with the same Purchaser without our having to draw attention to this in each individual case; we shall inform the Purchaser in such a case without delay about any amendments to our General Sales Terms and Conditions.

(3) Our General Sales Terms and Conditions shall apply exclusively. Any deviating, contrary or supplementary general terms and conditions of the Purchaser shall only become a part of this Contract then and inasmuch as we have expressly agreed to their application. This requirement for agreement shall apply in every case, for example also if we carry out delivery to the Purchaser without reservation and with knowledge of the Purchasers general terms and conditions.

(4) Any individual agreements made with the Purchaser in the individual case (including ancillary arrangements, supplements and amendments) shall always have priority over these General Sales Terms and Conditions. For the content of such agreements, an agreement made in written form or our confirmation given in written form shall be decisive.

(5) Declarations and notices of legal significance which are to be given to us by the Purchaser after conclusion of contract (e.g. the setting of periods, notices of defect, declaration of withdrawal or reduction) require written form to be effective.

(6) Indications to the applicability of statutory regulations only have clarifying significance. Even without such clarification, the statutory regulations shall apply therefore without their being amended directly or excluded expressly in these General Sales Terms and Conditions.

(7) For orders through our online shop, the indications given there shall be observed separately.

Section 2: Conclusion of Contract outside the online shop

(1) For the conclusion of contract through our online shop, the "General Terms and Conditions for Purchases in the Online Shop" included there shall apply.

(2) Our offers outside the online shop are subject to confirmation and non-binding. This shall also apply when we have given the Purchaser catalogues, technical documentation (e.g. drawings, plans, calculations, references to DIN norms), other product descriptions or documents – also in electronic form – in which we reserve title and copyright.

(3) The acceptance of the offer of purchase may be declared by us to the Purchaser either in written form or through delivery of the Goods to the Purchaser.

Section 3: Delivery dates

(1) Delivery dates or periods, which have not been expressly agreed as binding, are exclusively non-binding offers.

(2) Inasmuch as we cannot keep to binding delivery periods for reasons for which we do not bear the responsibility (non-availability of service), we shall inform the Purchase about this without delay and, at the same time, give notice of the probably, new delivery period. If the service is not available even within the new delivery period, we are entitled to withdraw either fully or partly from the Contract; any already provided counter performance of the Purchaser shall be refunded without delay. Any self-delivery by our suppliers shall be regarded as non-availability in these terms if we have concluded a congruent hedge transaction, neither we nor our suppliers have incurred any fault and we are not obliged to procurement in the individual case.

(3) The rights of the Purchaser in accordance with section 8 of these General Sales Terms and Conditions and our statutory rights, in particular in case of exclusion of the obligation of service (e.g. due to impossibility or unreasonableness of service and/or subsequent performance), are not affected.

Section 4: Delivery, transfer of risk, return of Goods free of defects

(1) Delivery shall take place ex works which shall also be the place of performance. On request by and at the expense of the Purchaser, the Goods shall also be sent to another place of destination (sale to destination). Inasmuch as nothing else has been agreed, we are entitled to determine the type of shipping (in particular the carrier, the despatch route, packaging) ourselves.

(2) The risk of accidental destruction or accidental deterioration of the Goods shall be transferred at the latest on being handed over to the Purchaser. In the case of sale to destination, however, the risk of accidental destruction or accidental deterioration of the Goods and the risk of delay shall be transferred to the carrier or the haulage contractor already on delivery of the Goods to the carrier or the haulage contractor.

(3) There is no take-back obligation for Goods delivered free of defects. If we declare that we are prepared, by way of fairness, to take back Goods which are in faultless condition and in their original packaging, a Goods credit deducting a re-storage fee of 10% of the calculated price shall be made after the Goods have been received by us and the Purchaser has provided verification of delivery. If the Goods have been unpacked but are complete and undamaged, 20% of the calculated price shall be deducted for control, packaging and re-storage work. There shall be greater deduction if the Goods are incomplete and/or damaged whereby in such cases we reserve the right to refuse to take back the Goods.

Any set-off shall only be permitted after credit has been given. Before return of the Goods in the case of being taken back for reasons of fairness, the Purchaser shall request a RMA number (Return Merchandise Authorisation) as the Goods shall be quickly and correctly assigned by us on receipt.

Section 5: Prices, payment conditions

(1) Inasmuch as, in the individual case, nothing else has been agreed, our current prices, which are applicable at the point of time of conclusion of contract, shall apply ex store plus the statutory VAT.

(2) In the case of sale to destination (section 4 sub-section 1), the Purchaser shall bear the transport costs ex store and the costs of any transport insurance if desired by the Purchaser. Any customs duties, charges, taxes or other public levies shall

be borne by the Purchaser. We shall not take back any transport or any other packaging costs in accordance with the stipulation of the Packaging Regulation; they shall become the property of the Purchaser with the exception of pallets.
(3) Our invoices are due on issuance and payable net without deduction. Any other payment period requires separate agreement. We reserve the right to request advance payment in individual cases. If direct debit has been agreed, the payment amount shall be due one day after the receipt of invoice unless a different due date has been stated on the invoice. Advance information of direct debit (SEPA pre-notification) shall take place together with the invoice. Receipt of advance information, at the latest one day before due date is sufficient (debit of invoice sum). We are entitled to demand interest amounting to the credit costs that we have to pay, but to at least one percent per month, from the Purchaser, who is a businessman in the terms of the Commercial Code (HGB), from due date onwards and from the Purchaser, who is not a businessman, from default onwards.
(4) The Purchaser shall only have the right to set-off or retention inasmuch as his claim has been established with legal effectiveness or is undisputed. In the case of defects in the delivery, the counter rights of the Purchaser, in particular in accordance with section 7 sub-section 6 sentence 2 of these General Sales Terms and Conditions, remain unaffected.

Section 6: Reservation of title
(1) Up until full payment of all our present and future demands from the Purchase Contract and a current business relationship (secured demands), we reserve title in the sold Goods.
(2) The Goods, which are subject to reservation of title, may neither be assigned to third parties before full payment of the secured demands, nor transferred for security. The Purchaser shall notify us without delay and in writing if and inasmuch access by third parties to Goods, which belong to us, takes place.
(3) In the case of behaviour on the part of the Purchaser contrary to contract, in particular in the case of non-payment of the due purchase price, we shall be entitled, in accordance with the statutory regulations, to withdraw from the Contract and/or demand surrender of the Goods on the basis of the reservation of title. A demand for surrender does not at the same time mean withdrawal; rather we are entitled to demand surrender of the Goods and reserve the right to withdrawal. If the Purchaser does not pay the due purchase price, we may only assert these rights if we have previously set the Purchaser a reasonable period for payment without success or such setting of a period is not necessary in accordance with the statutory regulations.
(4) The Purchaser is entitled to resell and/or process the Goods, to which title is reserved, in the correct course of business. In such a case, the following provisions shall apply in addition:
(a) reservation of title shall extend to products arising from the processing, mixing and combining of our Goods to their full value, in which case, however, we shall be regarded as the producer. If, in processing, mixing or combining them with the Goods of third parties their right to ownership remains, we shall acquire co-ownership in the ratio of the invoice value of the processed, mixed or combined Goods. Otherwise, the same shall apply to the product emerging as to the Goods delivered under the reservation of title.
(b) The Purchaser shall assign demands arising from re-sale of the Goods or the products against third parties already now in full or at the amount of any co-ownership share of ours in accordance with the above paragraph as surety to us. We accept such assignment. The duties of the Purchaser stated in sub-section 2 shall also apply in view of the assigned demands.
(c) The Purchaser is also authorised to collect the demand as well as we are. We undertake not to collect the demand as long as the Purchaser meets his payment obligations towards us, does not come into default of payment, no application for the opening of insolvency proceedings has been made and no other defect in his efficiency is apparent. Is this is the case, however, we may demand that the Purchaser notifies us of the assigned demands and their debtors, supplies all information necessary for collection, hands over the appropriate documents and notifies the debtors (third parties) of assignment.
(d) If the realisable value of the sureties exceeds our demands by more than 10%, we shall release sureties in accordance with our choice on request by the Purchaser.

Section 7: Purchasers claims for defects
(1) The statutory regulations shall apply to the Purchasers rights in respect to material and legal defects including incorrect and reduced delivery and incorrect or defective assembly instructions) inasmuch as nothing else has been determined in the following. In all cases the statutory special regulations in case of final delivery of the Goods to a consumer remain unaffected (supplier recourse sections 478, 479 BGB).
(2) The basis of our defect liability is, above all, the agreement made concerning the composition of the Goods. All product descriptions concerning the Goods, which are the subject matter of the individual contract, shall be regarded as agreement concerning the composition of the Goods; there is no difference here whether the product description originates from the Purchaser, from the producer or from us.
(3) Inasmuch as the composition has not yet been agreed, it shall be judged in accordance with statutory regulation whether there is a defect or not (section 434 sub-section 1 sentence 2 and 3 BGB). We do not assume any liability, however, for public statements by the producer or other third parties (e.g. advertising statements).
(4) The claims for defect claims of the Purchaser, who is a businessman, require that he has met his statutory examination and complaint duties without delay. Notice is regarded as without delay if it takes place within seven days in written form with a description of the defect. The same shall apply for defects which are discovered later.
(5) If the item, which has been delivered, is defective, we may first of all choose whether we provide subsequent performance by eliminating the defect (subsequent improvement) or by delivery of an item free of defects (replacement delivery). Our right to refuse subsequent performance under the statutory prerequisites remains unaffected.
(6) We are entitled to make the subsequent performance owed dependent on the Purchaser paying the due purchase price. The Purchaser is, however, entitled to retain a reasonable part of the purchase price in the ratio to the defect.
(7) The Purchaser shall give us the time and opportunity necessary for the subsequent performance owed, in particular to hand over the Goods which are subject to complaint for purposes of testing. In the case of replacement delivery, the Purchaser shall return the defective item in accordance with the statutory regulations. Subsequent performance means neither removal of the defective item nor re-installation if we were not originally obliged to install.
(8) We shall bear the expenditure necessary for examination and subsequent performance, in particular the transport, way, labour and material costs (not: removal and installation costs) if there is in actual fact a defect. If however, the defect elimination demand of the Purchaser turns out to be unjustified, we may demand the costs arising for this from the Purchaser.
(9) In urgent cases, e.g. if operating safety is endangered or to avert disproportionate damage, the Purchaser has the right to eliminate the defect himself and to demand compensation for the objectively necessary expenses for this from us. We shall be informed about the action taken independently, if possible previously. There is no right to act independently if we would have been entitled to refuse such subsequent performance in accordance with the statutory regulations.
(10) If subsequent performance has failed or a reasonable period to be set for the subsequent performance by the Purchaser has expired without success, or is dispensable in accordance with the statutory regulations, the Purchaser may withdraw from the Purchase Contract or reduce the purchase price. In the case of inappreciable defects, there is however no right of withdrawal.
(11) Any Purchasers claims to damages or compensation for futile expenditure only exist in accordance with the stipulations of section 8 and are otherwise ruled out.

Section 8: Other liability
(1) Inasmuch as nothing else evolves from these General Sales Terms and Conditions including the following provisions, we shall be liable in the case of breach of contractual and non-contractual duties in accordance with the relevant statutory regulations.
(2) We shall be liable for damages – no matter for which legal reason – in the case of intent and gross negligence. In the case of ‚simple' negligence, we shall only be liable
a) for damage arising from fatal injury, physical injury or damage to the health
b) for damage arising from the breach of a significant contractual duty (duty the performance of which enables correct execution of the Contract in the first place and on the adherence to which the contract partner may and generally rely); in this case, however, our liability is limited to compensation for the foreseeable, typically arising damage.
(3) The limitations of liability stated in sub-section 2 shall not apply inasmuch as we have maliciously concealed a defect or have assumed warranty for the composition of the Goods. The same shall apply to the Purchasers claims in accordance with the Product Liability Act.
(4) Due to any breach of duty, which does not consist of a defect, the Purchaser may only withdraw (from the Contract) or terminate if we are responsible for the breach of duty. Any free termination right of the Purchaser (in particular in accordance with sections 651, 649 BGB) is ruled out. Otherwise the statutory prerequisites and legal consequences shall apply.

Section 9: Re-sale
Active re-sale of our products by the Purchaser in countries outside Germany or active or passive re-sale in the US or Canada requires our previous expressed and written approval. In the case of such re-sale without our approval, the Purchaser shall indemnify us against any claim in particular for reasons of product liability or patent and trademark protection.

Section 10: Purchasers own examination duties
The Purchaser shall check within his own responsibility whether a product purchased by us may be assembled or used in accordance with the traffic and traffic licence provisions applicable in the intended place of use. We shall assume no liability for non-permitted assembly or taking into service unless we have expressly made a corresponding statement about the specific permissibility for the product.

Section 11: Choice of law and place of jurisdiction
(1) The law of the Federal Republic of Germany shall apply for these General Sales Terms and Conditions and all legal relationships between us and the Purchaser excluding international uniform law, in particular the CISG (UN Convention on Contracts for the International Sale of Goods). Prerequisites and the effects of the reservation of title in accordance with section 6 are subject to the law of the place in which the item is stored inasmuch as in accordance with that the choice of law made is impermissible or ineffective in favour of German law.
(2) If the Purchaser is a businessman in the terms of the German Commercial Code, a legal entity under public law or a special fund under public law, the exclusive – also international – place of jurisdiction for all disputes arising from the contractual relationship, either directly or indirectly, shall be our seat of business in Rauschenberg. We are, however, also entitled to take action at the Purchasers general place of jurisdiction of the Purchaser.
